**Mesdames/Gentlemen:**

Please be informed that a consortium comprised of Unisys Philippines, AC Infrastructure Holdings Corporation and Aboitiz InfraCapital, Inc. has submitted an unsolicited proposal under RA 7718 (BOT Law) to the Philippine Statistics Authority on August 13, 2018 for the design and development of a national identity infrastructure solution, which is intended to collect, store, maintain, manage, and authenticate identity information of individuals.

The 17-year proposal provides an expedient, comprehensive and long-term solution that will enable the government to realize the full potential of its strategic programs by providing a safe and secure identification and benefits payment mechanism for individuals transacting with government.

Very truly yours,
