CERTIFICATION

I, **FRANCIS B. ALBALATE**, is a duly authorized representative of Philippine National Bank ("PNB"), a universal banking corporation organized and existing under the laws of the Republic of the Philippines under SEC Registration No. AS096-005555, with principal office address at the PNB Financial Center, Pres. Diosdado Macapagal Blvd., Pasay City, Metro Manila, on oath state that:

1. On behalf of PNB, I have caused this Audited Financial Statement of PNB and its Subsidiaries as of December 31, 2023 and 2022 and for the years ended December 31, 2023, 2022 and 2021 to be prepared;
2. I read and understood its contents which are true and correct of my own personal knowledge and/or based on true records;
3. PNB will comply with the requirements set forth in SEC Notice dated May 12, 2021 for a complete and official submission of reports and/or documents through electronic mail; and
4. I am fully aware that documents filed online which requires pre-evaluation and/or processing fee shall be considered complete and officially received only upon payment of the filing fee.

IN WITNESS WHEREOF, I have hereunto set my hand on February 23, 2024 in Pasay City, Metro Manila.

FRANCIS B. ALBALATE
Executive Vice President and
Chief Financial Officer

Report on the Consolidated and Parent Company Financial Statements

Opinion

We have audited the consolidated financial statements of Philippine National Bank and its Subsidiaries (the Group) and the parent company financial statements of Philippine National Bank (the Parent Company), which comprise the consolidated and parent company statements of financial position as at December 31, 2023 and 2022, and the consolidated and parent company statements of income, consolidated and parent company statements of comprehensive income, consolidated and parent company statements of changes in equity and consolidated and parent company statements of cash flows for each of the three years in the period ended December 31, 2023, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Group and the Parent Company as at December 31, 2023 and 2022, and their financial performance and its cash flows for each of the three years in the period ended December 31, 2023 in accordance with Philippine Financial Reporting Standards (PFRSs).

Basis for Opinion

We conducted our audit in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements* section of our report. We are independent of the Group and the Parent Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in the audit of the financial statements of the current period. These matters were addressed in the context of the audit of the financial statements as a whole, and in forming the auditor's opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

Applicable to the audit of the consolidated and parent company financial statements

Adequacy of Allowance for Credit Losses on Loans and Receivables

The Group and the Parent Company's application of the expected credit losses (ECL) model in calculating the allowance for credit losses on loans and receivables is significant to our audit as it involves the exercise of significant management judgment. Key areas of judgment include: segmenting the Group's and the Parent Company's credit risk exposures; determining the method to estimate ECL; defining default; identifying exposures with significant deterioration in credit quality; determining assumptions to be used in the ECL model such as the counterparty credit risk rating, the expected life of the financial asset, expected recoveries from defaulted accounts, and impact of any financial support and credit enhancements extended by any party; and incorporating forward-looking information in calculating ECL.

Allowance for credit losses on loans and receivables as of December 31, 2023 amounted to ₱42.6 billion for the Group and the Parent Company. Provision for credit losses in 2023 amounted to ₱5.7 billion and ₱5.5 billion for the Group and the Parent Company, respectively.

The disclosures related to the allowance for credit losses on loans and receivables are included in Note 16 of the financial statements.

Audit response

We obtained an understanding of the board approved methodologies and models used for the Group's and the Parent Company's different credit exposures and assessed whether these considered the requirements of PFRS 9, *Financial Instruments*, to reflect an unbiased and probability-weighted outcome, and to consider time value of money and the best available forward-looking information.

We (a) assessed the Group's and the Parent Company's segmentation of its credit risk exposures based on homogeneity of credit risk characteristics; (b) tested the definition of default and significant increase in credit risk criteria against historical analysis of accounts, credit risk management policies and practices in place; (c) tested the Group's and the Parent Company's application of internal credit risk rating system by reviewing the ratings of sample credit exposures; (d) assessed whether expected life is different from the contractual life by testing the maturity dates reflected in the Group's and the Parent Company's records

and considering management's assumptions regarding future collections, advances, extensions, renewals and modifications; (e) tested loss given default by inspecting historical recoveries and related costs, write-offs and collateral valuations, and the effects of any financial support and credit enhancements provided by any party; (f) tested exposure at default considering outstanding commitments and repayment scheme; (g) evaluated the forward-looking information used for overlay through corroboration of publicly available information and our understanding of the Group's and the Parent Company's lending portfolios and broader industry knowledge; and (h) tested the effective interest rate used in discounting the expected loss.

Further, we compared the data used in the ECL models by reconciling data from source system reports to the data warehouse and from the data warehouse to the loss allowance analysis/models and financial reporting systems. To the extent that the loss allowance analysis is based on credit exposures that have been disaggregated into subsets of debt financial assets with similar risk characteristics, we traced or re-performed the disaggregation from source systems to the loss allowance analysis. We also assessed the assumptions used where there are missing or insufficient data.

We recalculated impairment provisions on a sample basis. We involved our internal specialist in the performance of the above procedures.

We reviewed the completeness of the disclosures made in the financial statements.

Impairment Testing of Goodwill

As of December 31, 2023, the goodwill of the Group and the Parent Company amounted to ₱10.2 billion and ₱10.3 billion, respectively, as a result of the acquisition of Allied Banking Corporation in 2013. Under PFRS, the Group and the Parent Company are required to test the amount of goodwill for impairment annually. Goodwill has been allocated to three cash generating units (CGUs) namely Retail Banking, Corporate Banking, and Treasury. The Group and the Parent Company performed the impairment testing using the value in use calculation. The annual impairment test is significant to our audit because it involves significant judgment and is based on assumptions which are subject to higher level of estimation uncertainty, specifically estimates of loan and deposit growth rates, interest margin, discount rates, and long-term growth rate.

The disclosures related to goodwill impairment are included in Note 14 to the financial statements.

Audit response

We involved our internal specialist in evaluating the methodology and the assumptions used by the Group and the Parent Company. We compared the key assumptions used, such as loan and deposit growth rates, interest margin and long-term growth rate to the historical performance of the CGUs and to economic and industry forecasts. We tested the parameters used in the derivation of the discount rate against market data. We also reviewed the disclosures about those assumptions to which the outcome of the impairment test is most sensitive; specifically those that have the most significant effect on the determination of the recoverable amount of goodwill.

Other Information

The other information consists of the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2023, other than the financial statements and our auditor's report thereon. Management is responsible for the other information. The SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2023 are expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated and parent company financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated and parent company financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated and Parent Company Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and the Parent Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and the Parent Company to express an opinion on the consolidated and parent company financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Supplementary Information Required Under Revenue Regulations 15-2010 and Section 174 of the Manual of Regulations for Banks (MORB)

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information required under Revenue Regulations 15-2010 in Note 40 and with Section 174 of the MORB in Note 41 to the financial statements are presented for purposes of filing with the Bureau of Internal Revenue and Bangko Sentral ng Pilipinas, respectively, and is not a required part of the basic financial statements. Such information is the responsibility of the management of Philippine National Bank. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The engagement partner on the audit resulting in this independent auditor's report is

PHILIPPINE NATIONAL BANK AND SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

(Amounts in Thousand Pesos except When Otherwise Indicated)

1. Corporate Information

Philippine National Bank (PNB or the Parent Company) is a universal bank established in the Philippines in 1916. On June 21, 1989, PNB's shares were listed with the Philippine Stock Exchange (PSE). As of December 31, 2023 and 2022, the shares of PNB are held by the following:

	2023	2022
LT Group, Inc. (LTG) (indirect ownership through its various holding companies)	59.83%	59.83%
PCD Nominee Corporation *	14.44%	15.85%
Other stockholders owning less than 10% each	25.73%	24.32%
	100.00%	100.00%

* Acts as a trustee-nominee for PNB shares lodged under the PCD system

PNB's immediate parent company, LTG, and ultimate parent company, Tangent Holdings Corporation, are also incorporated in the Philippines.

The Parent Company provides a full range of banking and other financial services, which include deposit-taking, lending, bills discounting, trade finance, foreign exchange dealings, treasury operations, wealth management, fund transfers, remittance and trust services. The Parent Company operates through its 631 and 651 domestic branches as of December 31, 2023 and 2022, respectively, as it continues to streamline its physical branch network through consolidation and expand customer reach via its digital channels. As of the same dates, the Parent Company has 73 and 72 overseas branches, representative offices, remittance centers and subsidiaries, respectively, in 17 locations in Asia, North America and Europe.

The subsidiaries of the Parent Company are engaged in a number of diversified financial and related businesses such as remittance, banking, investment banking, leasing, stock brokerage and/or related services. The Parent Company and the subsidiaries are collectively referred hereinto as the Group.

The principal place of business of the Parent Company is at PNB Financial Center, President Diosdado Macapagal Boulevard, Pasay City, Metro Manila, Philippines.

2. Summary of Material Accounting Policies

2.1 Basis of Preparation of the Financial Statements

The Group prepared the accompanying financial statements on a historical cost basis, except for the following accounts which are measured at fair value:

- financial assets and liabilities at fair value through profit or loss (FVTPL); and
- financial assets at fair value through other comprehensive income (FVOCI).

The financial statements of the Parent Company which include its Head Office in Pasay City, Philippines, and all of its domestic and foreign branches, reflect the accounts maintained in its Regular Banking Unit (RBU) and Foreign Currency Deposit Unit (FCDU). The functional currency of RBU and FCDU is Philippine pesos (₱ or PHP) and United States Dollar (USD), respectively. The

individual financial statements of these units are combined and any inter-unit accounts and transactions are eliminated. The presentation currency is the PHP.

The Group presents the amounts in the financial statements to the nearest thousand pesos (P000), unless otherwise stated.

2.2 Statement of Compliance

The Group prepared these financial statements in accordance with Philippine Financial Reporting Standards (PFRS) adopted by the Philippine Securities and Exchange Commission (SEC).

2.3 Presentation of the Financial Statements

The Group presents the statements of financial position in order of liquidity. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in Note 24.

The Group generally presents financial assets and financial liabilities at their gross amounts in the statement of financial position, unless the offsetting criteria under PFRS are met. The Group does not also set off items of income and expenses, unless offsetting is required or permitted by PFRS, or is specifically disclosed in the Group's accounting policies.

The Group presents its consolidated financial statements and parent company financial statements side-by-side to comply with the requirements of the Bangko Sentral ng Pilipinas (BSP).

2.4 Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries. The financial statements of the subsidiaries are prepared on the same reporting period as the Parent Company using consistent accounting policies. In the consolidation, the Group eliminates in full all significant intra-group balances, transactions, and results of intra-group transactions.

The Group consolidates its subsidiaries from the date on which the Group obtains control over the subsidiary (see definition of 'control' in 2.12 *Investments in Subsidiaries, Associates and Joint Ventures*). For partially-owned subsidiaries, the Group attributes the subsidiary's income, expenses and components of other comprehensive income (OCI) to the equity holders of the Parent Company and to the non-controlling interests (NCI), even if this results in deficit balances of the NCI. NCI represents the portion of profit or loss and the net assets not held by the Group, which are presented separately in the consolidated financial statements. NCI consists of the amount attributed to such interest from the date of business combination and its share in any changes in equity of the subsidiary.

When the Group's ownership interest in a subsidiary changes but does not result in a loss of control, the Group adjusts the carrying amounts of the controlling interests and the NCI to their new relative interests in the subsidiary. The Group recognizes any difference between the amount by which the NCI is adjusted and the fair value of the consideration paid or received directly in equity as 'Other equity reserves', which is attributed to the owners of the Parent Company.

Consolidation of a subsidiary ceases when the Group loses control over the subsidiary. In such circumstances, the Group derecognizes the assets (including goodwill), liabilities, NCI, and other components of equity of the subsidiary, and recognizes the consideration received and any investment retained at their fair values. The Group records any resulting difference in the statement of income as 'Gain on loss of control of subsidiaries - net'.

2.5 Foreign Currency Translation

For financial reporting purposes, the Group translates all accounts in the FCDU books and foreign currency-denominated accounts in the RBU books into their equivalents in Philippine pesos. Each entity in the Group determines its own functional currency and items included in the consolidated financial statements are measured using that functional currency.

2.5.1 Transactions and Balances

As at reporting date, the Group translates the following foreign currency-denominated accounts in the RBU in Philippine peso using:

Financial statement accounts in RBU	Exchange rate
Monetary assets and liabilities	Bankers Association of the Philippines (BAP) closing rate at end of year
Income and expenses	Rate prevailing at transaction date
Non-monetary items measured at historical cost in a foreign currency	Rate at the date of initial transaction
Non-monetary items measured at fair value in a foreign currency	Rate at the date when fair value is determined

The Group recognizes in the statement of income any foreign exchange differences arising from revaluation of monetary assets and liabilities. For non-monetary items measured at fair values, the Group recognizes any foreign exchange differences arising from revaluation in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively).

2.5.2 FCDU and Overseas Branches and Subsidiaries

As at the reporting date, the Group translates the assets and liabilities of the FCDU and overseas branches and subsidiaries in Philippine peso at the BAP closing rate prevailing at the reporting date, and their income and expenses at the average exchange rate for the year. Foreign exchange differences arising on translation are taken directly to OCI under 'Accumulated translation adjustment'. Upon disposal of a foreign entity or upon actual remittance of FCDU profits to RBU, the deferred cumulative amount recognized in OCI relating to the particular foreign operation is recognized in the statement of income.

2.6 Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new pronouncements effective as at January 1, 2023. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective. Unless otherwise indicated, adoption of these new standards did not have an impact on the financial statements.

- Amendments to Philippine Accounting Standards (PAS) 1, *Presentation of Financial Statements*, and PFRS Practice Statement 2, *Disclosure Initiative – Accounting Policies*
The amendments provide guidance and examples to help entities apply materiality judgments to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by:
 - Replacing the requirement for entities to disclose their ‘significant’ accounting policies with a requirement to disclose their ‘material’ accounting policies; and
 - Adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments to the Practice Statement provide non-mandatory guidance. The amendments have had an impact on the Group’s disclosure of accounting policies, but not on the measurement, recognition or presentation of any items in the Group’s financial statements.

- Amendments to PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors – Definition of Accounting Estimates*
The amendments introduce a new definition of accounting estimates and clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. The amendments also clarify that the effects on an accounting estimate of a change in an input or a change in a measurement technique are changes in accounting estimates if they do not result from the correction of prior period errors.
- Amendments to PAS 12, *Income Taxes – Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction*
The amendments narrow the scope of the initial recognition exception under PAS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases. The amendments also clarify that where payments that settle a liability are deductible for tax purposes, it is a matter of judgement (having considered the applicable tax law) whether such deductions are attributable for tax purposes to the liability recognized in the financial statements (and interest expense) or to the related asset component (and interest expense). The amendments apply to transactions that occur on or after the beginning of the earliest comparative period presented.
- Amendments to PAS 12, *Income Taxes – International Tax Reform – Pillar Two Model Rules*
The amendments have been introduced in response to the Base Erosion and Profit Sharing Pillar Two model rules of the Organization for Economic Cooperation and Development and include:
 - A mandatory temporary exemption to the recognition and disclosure of deferred taxes arising from the jurisdictional implementation of the Pillar Two model rules; and
 - Disclosure requirements for affected entities to help users of the financial statements better understand an entity’s exposure to Pillar Two income taxes arising from that legislation, particularly before its effective date.

The mandatory temporary exemption – the use of which is required to be disclosed – applies immediately. The remaining disclosure requirements apply for annual reporting periods beginning on or after January 1, 2023 but not for any interim periods ending on or before December 31, 2023.

The Group has reviewed its corporate structure in light of the introduction of Pillar Two Model Rules in the various jurisdictions in which it operates. The Group has determined that it is not subject to Pillar Two taxes since its effective tax rate is above 15% in all the jurisdictions in which it operates (except for domestic subsidiaries, which are not material to the Group).

Therefore, as the related Pillar Two disclosures are not required, the amendments have no impact on the Group's consolidated financial statements.

2.7 Business Combinations

The Group accounts for business combinations using the acquisition method. Under this method, the Group measures the acquisition cost as the aggregate of the acquisition-date fair value of the consideration transferred and any amount of NCI in the acquiree. The Group then allocates that cost to the acquired identifiable assets and liabilities based on their respective fair values. Any excess acquisition cost over the fair value of the net assets acquired is allocated to goodwill (see related accounting policy under 2.13.3 *Intangible Assets*). If the fair value of the net assets acquired exceeds the acquisition cost, the gain is recognized in the statement of income. The Group recognizes any acquisition-related costs as administrative expenses as they are incurred. The Group also recognizes any contingent consideration to be transferred by the acquirer at its fair value at the acquisition date.

In business combinations involving entities under common control, the Group determines whether or not the business combination has commercial substance. When there is commercial substance, the Group accounts for the transaction using the acquisition method as discussed above. Otherwise, the Group accounts for the transaction similar to a pooling of interests (i.e., the assets and liabilities of the acquired entities and that of the Group are reflected at their carrying values, and any resulting difference with the fair value of the consideration given is accounted for as an equity transaction).

2.8 Non-current Assets and Disposal Group Held for Sale and Discontinued Operations

The Group classifies non-current assets and disposal group as held for sale if their carrying amounts will be recovered principally through a sale transaction. As such, non-current assets and disposal groups are measured at the lower of their carrying amounts and fair value less costs to sell (i.e., the incremental costs directly attributable to the sale, excluding finance costs and income taxes).

The Group regards the criteria for held for sale classification as met only when:

- the Group has initiated an active program to locate a buyer;
- the Group is committed to the plan to sell the asset or disposal group, which should be available for immediate sale in its present condition;
- the sale is highly probable (i.e, expected to happen within one year from the date of the classification); and
- actions required to complete the plan indicate that it is unlikely that the plan will be significantly changed or withdrawn.

The Group presents separately the assets and liabilities of disposal group classified as held for sale in the statement of financial position.

The Group classifies a disposal group as discontinued operation if it is a component of the Group that either has been disposed of, or is classified as held for sale, and:

- represents a separate major line of business or geographical area of operations;
- is part of a single coordinated plan to dispose of a separate major line of business or geographical area of operations; or
- is a subsidiary acquired exclusively with a view to resale.

The Group excludes discontinued operations from the results of continuing operations and presents them as a single amount as profit or loss after tax from discontinued operations in the statement of income.

If the above criteria are no longer met, the Group ceases to classify the asset or disposal group as held for sale. In such cases, the Group measures such asset or disposal group at the lower of its:

- carrying amount before it was classified as held for sale, adjusted for any depreciation, amortization or revaluations that would have been recognized had it not been classified as such; and
- recoverable amount at the date of the subsequent decision not to sell.

The Group also amends financial statements for the periods since classification as held for sale if the asset or disposal group that ceases to be classified as held for sale is a subsidiary, joint operation, joint venture, associate, or a portion of an interest in a joint venture or an associate. Accordingly, for all periods presented, the Group reclassifies and includes in income from continuing operations the results of operations of the asset or disposal group previously presented in discontinued operations.

2.9 Fair Value Measurement

Fair value is the price that the Group would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value measurement is based on the presumption that these transactions take place either:

- in the principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to the Group. The Group measures the fair value of an asset or a liability using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. If an asset or a liability measured at fair value has both bid and ask prices, the Group uses the price within the bid-ask spread, which is the most representative of fair value in the circumstances.

For nonfinancial assets, the Group measures their fair value considering a market participant's ability to generate economic benefits by using an asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described in Note 5, based on the lowest level input that is significant to the fair value measurement as a whole.

2.10 Cash and Cash Equivalents

For purposes of reporting cash flows, cash and cash equivalents include cash and other cash items (COCI), amounts due from BSP and other banks, interbank loans receivable and securities held under agreements to resell that are convertible to known amounts of cash, with original maturities of three months or less from dates of placements and that are subject to an insignificant risk of changes in fair value. Due from BSP includes statutory reserves required by the BSP, which the Group considers as cash equivalents wherein drawings can be made to meet cash requirements.

2.11 Financial Instruments

2.11.1 Initial Recognition of Financial Instruments

The Group recognizes purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace on settlement date (i.e., the date that an asset is delivered to or by the Group), while derivatives are recognized on trade date (i.e., the date that the Group commits to purchase or sell). The Group recognizes deposits, amounts due to banks and customers and loans when cash is received by the Group or advanced to the borrowers.

All financial instruments are initially recognized at fair value. Except for financial instruments at FVTPL, the initial measurement of financial instruments includes transaction costs.

2.11.2 Classification and Subsequent Measurement of Financial Instruments

The Group classifies and measures financial assets at FVTPL unless these are measured at FVOCI or at amortized cost. The classification of financial assets depends on the contractual terms and the business model for managing those financial assets.

The Group first assesses the contractual terms of financial assets to identify whether they pass the contractual cash flows test ('solely payments of principal and interest' or SPPI test). For the purpose of the SPPI test, principal is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortization of the premium or discount). The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. In contrast, contractual terms that introduce a more than insignificant exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are SPPI. In such cases, the financial asset is required to be measured at FVTPL. Only financial assets that pass the SPPI test are eligible to be measured at FVOCI or at amortized cost.

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. The Group's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios. If cash flows after initial recognition are realized in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

For financial liabilities, the Group classifies them as either financial liabilities at FVTPL or financial liabilities at amortized cost.

Financial assets at FVTPL

Financial assets at FVTPL include the following:

- Financial assets held for trading – those acquired for the purpose of selling or repurchasing in the near term;
- Derivative instruments – contracts entered into by the Group (such as currency forwards, currency swaps, interest rate swaps and warrants) as a service to customers and as a means of reducing or managing their respective financial risk exposures, as well as for trading purposes;

- Financial assets that are not SPPI, irrespective of the business model; or
- Debt financial assets designated upon initial recognition at FVTPL – those assets where the Group applied the fair value option at initial recognition if doing so eliminates or significantly reduces an accounting mismatch

The Group carries financial assets at FVTPL in the statement of financial position at fair value. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative. The Group recognizes any gains or losses arising from changes in fair values of financial assets at FVTPL directly in the statement of income under ‘Trading and investment securities gains (losses) - net’, except for currency forwards and currency swaps, where fair value changes are included under ‘Foreign exchange gains - net’.

Financial assets at FVOCI

Financial assets at FVOCI include debt and equity securities, which are subsequently measured at fair value. The Group recognizes the unrealized gains and losses arising from the fair valuation of financial assets at FVOCI, net of tax, in the statement of comprehensive income as ‘Net change in unrealized gain (loss) on financial assets at FVOCI’.

Debt securities at FVOCI are those that meet both of the following conditions:

- the asset is held within a business model whose objective is to hold the financial asset in order to both collect contractual cash flows and sell the financial asset; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the outstanding principal amount.

The Group reports the effective yield component of debt securities at FVOCI, as well as the impact of restatement on foreign currency-denominated debt securities at FVOCI, in the statement of income. When the debt securities at FVOCI are disposed of, the cumulative gain or loss previously recognized in OCI is recognized as ‘Trading and investment securities gain (loss) - net’ in the statement of income. The Group recognizes the expected credit losses (ECL) arising from impairment of such financial assets in OCI with a corresponding charge to ‘Provision for impairment, credit and other losses’ in the statement of income (see related accounting policy under 2.11.5 *Impairment of Financial Assets*).

Equity securities designated at FVOCI are those that the Group made an irrevocable election at initial recognition to present in OCI the subsequent changes in fair value. The Group recognizes the dividends earned on holding the equity securities at FVOCI in the statement of income when the right to payment has been established. Gains and losses on disposal of these equity securities at FVOCI are never recycled to profit or loss, but the cumulative gain or loss previously recognized in the OCI is reclassified to ‘Surplus’ or any other appropriate equity account upon disposal. The Group does not subject equity securities at FVOCI to impairment assessment.

Financial assets at amortized cost

Financial assets at amortized cost are debt financial assets that meet both of the following conditions:

- the asset is held within a business model whose objective is to hold the financial asset in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the outstanding principal amount.

This accounting policy relates to the statement of financial position captions ‘Due from Bangko Sentral ng Pilipinas’, ‘Due from other banks’, ‘Interbank loans receivable’, ‘Securities held under agreements to resell’, ‘Investment securities at amortized cost’, and ‘Loans and receivables’.

The Group subsequently measures financial assets at amortized cost using the effective interest method of amortization, less allowance for credit losses. The Group includes the amortization in 'Interest income', and the ECL arising from impairment of such financial assets in 'Provision for impairment, credit and other losses' in the statement of income (see related accounting policy under *2.11.5 Impairment of Financial Assets*).

Financial liabilities at amortized cost

The Group classifies issued financial instruments or their components which are not designated at FVTPL, as financial liabilities at amortized cost under 'Deposit liabilities', 'Bills and acceptances payable', 'Bonds payable' or other appropriate financial liability accounts. The substance of the contractual arrangement for these instruments results in the Group having an obligation either to deliver cash or another financial asset to the holder, or to satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares. The components of issued financial instruments that contain both liability and equity elements are accounted for separately, with the equity component being assigned the residual amount after deducting from the instrument as a whole the amount separately determined as the fair value of the liability component on the date of issue.

The Group capitalizes the costs incurred in connection with the issuance of debt securities (other than those designated at FVTPL) and amortizes over the terms of the instruments using the effective interest method. The Group includes any unamortized debt issuance costs in the carrying value of the related debt instruments in the statement of financial position.

The Group subsequently measures financial liabilities at amortized cost using the effective interest method of amortization.

Repurchase and reverse repurchase agreements

The Group does not derecognize from the statement of financial position securities sold under agreements to repurchase at a specified future date ('repos'). Instead, the Group recognizes the corresponding cash received, including accrued interest, as a loan to the Group, reflecting the economic substance of such transaction.

Conversely, the Group does not recognize securities purchased under agreements to resell at a specified future date ('reverse repos'). The Group is not permitted to sell or repledge the securities in the absence of default by the owner of the collateral. The Group recognizes the corresponding cash paid, including accrued interest, as a loan to the counterparty. The difference between the purchase price and resale price is treated as interest income and is accrued over the life of the agreement using the effective interest method.

2.11.3 Reclassification of Financial Instruments

Subsequent to initial recognition, the Group may reclassify its financial assets only when there is a change in the business models for managing these financial assets. Reclassification of financial liabilities is not allowed.

2.11.4 Derecognition of Financial Instruments

Financial Assets

The Group derecognizes a financial asset (or, where applicable, a part of a financial asset or part of a group of financial assets) when:

- the rights to receive cash flows from the asset have expired;

- the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass-through' arrangement; or
- the Group has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained the risk and rewards of the asset but has transferred control over the asset.

Where the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control over the asset, the Group recognizes the asset only to the extent of its continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Financial assets are written off either partially or in their entirety only when the Group has stopped pursuing recovery. If a write-off is later recovered, any amounts formerly charged are credited to 'Recoveries' under 'Miscellaneous Income' in the statements of income.

Financial liabilities

The Group derecognizes a financial liability when the obligation under the liability is discharged or cancelled or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, the Group treats such an exchange or modification as a derecognition of the original liability and recognition of a new liability, and Group recognizes the difference in the respective carrying amounts in the statement of income.

2.11.5 Impairment of Financial Assets

ECL methodology

The Group's loss impairment method on financial instruments applies a forward-looking ECL approach, which covers all loans and other debt financial assets not held at FVTPL, together with loan commitments and financial guarantee contracts. The ECL allowance is based on the credit losses expected to arise on a 12-month duration if there has been no significant increase in credit risk (SICR) of the financial instrument since origination (12-month ECL). Otherwise, if an SICR is observed, then the Group extends its ECL estimation until the end of the life of the financial instrument (Lifetime ECL). Both Lifetime ECLs and 12-month ECLs are calculated on either an individual basis or a collective basis, depending on the nature of the underlying portfolio of financial instruments.

Staging assessment

The Group categorizes financial instruments subject to the ECL methodology into three stages:

- Stage 1 – comprised of all non-impaired financial instruments which have not experienced an SICR since initial recognition. The Group recognizes 12-month ECL for Stage 1 financial instruments.
- Stage 2 – comprised of all non-impaired financial instruments which have experienced an SICR since initial recognition. The Group recognizes Lifetime ECL for Stage 2 financial instruments.
- Stage 3 – comprised of financial instruments which have objective evidence of impairment as a result of one or more loss events that have occurred after initial recognition with a negative impact on their estimated future cash flows. The Group recognizes Lifetime ECL for Stage 3 (credit-impaired) financial instruments.

Definition of “default” and “cure”

The Group considers default to have occurred when:

- the obligor is past due for more than 90 days on any material credit obligation to the Group; or
- the obligor is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realizing collateral, as applicable.

The Group no longer considers an instrument to be in default when it no longer meets any of the default criteria and has exhibited satisfactory and acceptable track record for six consecutive payment periods, subject to applicable rules and regulations of the BSP.

Determining SICR

At each reporting date, the Group assesses whether the credit risk on a loan or credit exposure has increased significantly since initial recognition. The Group’s assessment of SICR involves looking at both the qualitative and quantitative elements, as well as if the loan or credit exposure is unpaid for at least 30 days (“backstop”).

The Group assesses SICR on loans or credit exposures having potential credit weaknesses based on current and/or forward-looking information that warrant management’s close attention. Such weaknesses, if left uncorrected, may affect the repayment of these exposures. The loan or credit exposure also exhibits SICR if there are adverse or foreseen adverse economic or market conditions that may affect the counterparty’s ability to meet the scheduled repayments in the future.

The Group looks at the quantitative element through statistical models or credit ratings process or scoring process that captures certain information, which the Group considers as relevant in assessing changes in credit risk. The Group also looks at the number of notches downgrade of credit risk rating (CRR) or certain thresholds for the probabilities of default being generated from statistical models to determine whether SICR has occurred subsequent to initial recognition date.

Transfer between stages

The Group transfers credit exposures from Stage 1 to Stage 2 if there is an SICR from initial recognition date. In subsequent reporting periods, if the credit risk of the financial instrument improves such that there is no longer an SICR since initial recognition, then the Group reverts them to Stage 1.

The Group transfers credit exposures from Stage 3 (non-performing) to Stage 1 (performing) when there is sufficient evidence to support their full collection. Such exposures should exhibit both of the following indicators:

- quantitative – characterized by payments made within an observation period; and
- qualitative – pertain to the results of assessment of the borrower’s financial capacity.

Generally, the Group considers that full collection is probable when payments of interest and/or principal are received for at least six months.

Modified or restructured loans and other credit exposures

In certain circumstances, the Group modifies the original terms and conditions of a credit exposure to form a new loan agreement or payment schedule, which may be provided depending on the borrower’s current or expected financial difficulties. Modifications may include, but are not limited to, change in interest rate and terms, principal amount, maturity date and schedule of periodic payments.

If modifications are considered by the Group as substantial based on qualitative factors, the loan is derecognized as discussed under *2.11.4 Derecognition of Financial Instruments*.

If a loan or credit exposure has been renegotiated or modified without resulting in derecognition, the Group records a modification gain or loss, to the extent that an impairment loss has not already been recorded, based on the change in cash flows discounted at the loan's original effective interest rate (EIR). The Group also assesses whether there has been a SICR by comparing the risk of default at reporting date based on modified terms, and the risk of default at initial recognition date based on original terms. Derecognition decisions and classification between Stages 2 and 3 are determined on a case-by-case basis.

Purchased or originated credit-impaired loans

The Group considers a loan as credit-impaired on purchase or origination if there is evidence of impairment at the time of initial recognition (i.e., acquired/purchased at a deep discounted price). The Group recognizes the cumulative changes in Lifetime ECL since initial recognition as a loss allowance for purchased or originated credit-impaired loan.

Measurement of ECL

ECLs are generally measured based on the risk of default over one of two different time horizons, depending on whether there has been SICR since initial recognition. ECL calculations are based on the following components:

- Probability of default (PD) – an estimate of the likelihood that a borrower will default on its obligations over the next 12 months for Stage 1 or over the remaining life of the credit exposure for Stages 2 and 3.
- Loss-given-default (LGD) – an estimate of the loss arising in case where default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the Group would expect to receive, including from any collateral.
- Exposure-at-default (EAD) – an estimate of the exposure at a future/default date taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest, expected drawdown on committed facilities and accrued interest from missed payments.
- Discount rate – represents the rate to be used to discount an expected loss to present value at the reporting date using the original EIR determined at initial recognition.

In measuring ECL, the Group considers forward-looking information depending on the credit exposure. The Group applies experienced credit judgment, which is essential in assessing the soundness of forward-looking information and in ensuring that these are adequately supported.

Forward-looking macroeconomic information and scenarios consider:

- factors that may affect the general economic or market conditions in which the Group operates, such as gross domestic product growth rates, foreign exchange rates, inflation rate, among others;
- changes in government policies, rules and regulations, such as adjustments to policy rates;
- other factors pertinent to the Group, including the proper identification and mitigation of risks such as incidences of loan defaults or losses.

The Group also measures ECL by evaluating a range of possible outcomes and using reasonable and supportable pieces of information that are available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

2.11.6 Financial Guarantees and Undrawn Loan Commitments

The Group gives loan commitments and financial guarantees consisting of letters of credit, letters of guarantees, and acceptances.

Financial guarantees are contracts that require the Group as issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument. The Group initially recognizes financial guarantees on trade receivables at fair value under 'Bills and acceptances payable' or 'Other liabilities' in the statement of financial position. Subsequent to initial recognition, the Group measures these financial guarantees at the higher of:

- the initial fair value less any cumulative amount of income or amortization recognized in the statement of income; and
- the ECL determined under PFRS 9.

Undrawn loan commitments and letters of credit are commitments under which, over the duration of the commitment, the Group is required to provide a loan with pre-specified terms to the customer.

The nominal contractual value of financial guarantees and undrawn loan commitments, where the loan agreed to be provided is on market terms, are not recorded in the statement of financial position.

The Group estimates the expected portion of the undrawn loan commitments that will be drawn over their expected life. The ECL related to financial guarantees and loan commitments without outstanding drawn amounts is recognized in 'Allowance for credit losses' under 'Loans and receivables'.

2.12 Investments in Subsidiaries, Associates and Joint Ventures

The Group's subsidiaries pertain to investees where the Group demonstrates control. The Group controls an investee if, and only if, the Group has:

- power over the investee (i.e., those existing rights that give the Group the current ability to direct the relevant activities of the investee);
- exposure or rights to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns.

When the Group has less than majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, such as contractual arrangements with other voting shareholders of the investee, rights arising from other contractual arrangements, or any potential voting rights of the Group.

The Group's associate pertains to the investee over which the Group has significant influence, which is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies. The Group's joint venture pertains to joint arrangements whereby the Group and other parties have joint control of the arrangement and have rights to the net assets of the arrangement.

The Group accounts for its investments in subsidiaries, associates and joint venture under the equity method of accounting. Under this method, the Group carries the investment in the statement of financial position at cost plus post-acquisition changes in the share in the net assets of the investee less accumulated impairment losses, if any (see related accounting policy under 2.13.5 *Impairment of Nonfinancial Assets*). The Group reflects its share in the results of operations of the investee and any

impairment losses in the statement of income. When there has been a change recognized in the investee's OCI, the Group recognizes its share in any changes and discloses this in the statement of comprehensive income. The Group eliminates any profits or losses arising from transactions between the Group and the investee to the extent of the interest of the Group in the investee. Once the Group's interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the investee.

When a change in ownership interest in a subsidiary occurs which results in a loss of control over the subsidiary, the Parent Company:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary;
- Derecognizes the carrying amount of any non-controlling interest;
- Derecognizes the related OCI recorded in equity and recycles the same to statement of income or 'Surplus';
- Recognizes the fair value of the consideration received;
- Recognizes the fair value of any investment retained;
- Recognizes any surplus or deficit in the statement of income; and
- Reclassifies the Parent Company's share of components' gains (losses) previously recognized in OCI to profit or loss or surplus, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

Upon loss of control over a subsidiary or significant influence over an associate, the Group measures and recognizes any retained investment at its fair value. Any resulting difference between the aggregate of the investee's carrying amount upon disposal and the fair value of the retained investment, and proceeds from disposal is recognized in the statement of income.

For transactions where ownership interest in a subsidiary, associate or joint venture that did not result in a loss of control or significant influence, as applicable, the Parent Company recognizes the gain or loss in the profit and loss representing the difference between the proceeds from sale and the carrying value of the investment.

2.13 Other Nonfinancial Assets

2.13.1 Property and Equipment

The initial cost of property and equipment consists of its purchase price, including import duties, taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use (see related accounting policy under 2.16.5 *Expenditures on Nonfinancial Assets*).

The Group carries its land at cost less any impairment in value, and its depreciable properties such as buildings, right-of-use assets, furniture, fixtures and equipment, long-term leasehold land, and leasehold improvements at cost less accumulated depreciation and amortization and any impairment in value (see related accounting policy under 2.13.5 *Impairment of Nonfinancial Assets*).

For right-of-use assets included under 'Property and equipment', see related accounting policy under 2.18.1 *Group as a Lessee Under Lease Contracts*.

2.13.2 Investment Properties and Chattel Mortgage Properties

The Group initially measures investment properties and chattel mortgage properties initially at cost, including transaction costs (see related accounting policy under 2.16.5 *Expenditures on Nonfinancial Assets*). When the investment property or chattel mortgage property is acquired through an exchange transaction, the Group measures the asset at its fair value, unless the fair value of such an asset cannot be reliably measured in which case the asset acquired is measured at the carrying amount of asset given up. The Group recognizes any gain or loss on exchange in the statement of income under 'Net gains (losses) on sale or exchange of assets'.

Foreclosed properties are classified under 'Investment properties' upon:

- entry of judgment in case of judicial foreclosure;
- execution of the Sheriff's Certificate of Sale in case of extra-judicial foreclosure; or
- notarization of the Deed of Dacion in case of payment in kind (dacion en pago).

Subsequent to initial recognition, the Group carries the investment properties and chattel mortgage properties at cost less accumulated depreciation (for depreciable properties) and any impairment in value (see related accounting policy under 2.13.5 *Impairment of Nonfinancial Assets*).

The Group transfers assets to investment properties when, and only when, there is a change in use evidenced by ending of owner occupation, commencement of an operating lease to another party or ending of construction or development. Conversely, the Group transfers out of investment properties when, and only when, there is a change in use evidenced by commencement of owner occupation or commencement of development with a view to sale.

2.13.3 Intangible Assets

The Group initially measures separately acquired intangible assets at cost, and the intangible assets acquired in a business combination at their fair values at the date of acquisition. The Group does not capitalize internally generated intangibles, excluding capitalized development costs, and reflects in profit or loss the related expenditures in the period in which the expenditure is incurred.

Intangibles with finite lives

The Group capitalizes software costs, included in 'Intangible assets', on the basis of the cost incurred to acquire and bring to use the specific software (see related accounting policy under 2.16.5 *Expenditures on Nonfinancial Assets*).

Customer relationship intangibles (CRI) and core deposits intangibles (CDI) are the intangible assets acquired by the Group through business combination. The Group initially measures these intangible assets at their fair values at the date of acquisition. The fair value of these intangible assets reflects expectations about the probability that the expected future economic benefits embodied in the asset will flow to the Group.

Following initial recognition, intangibles with finite lives are measured at cost less accumulated amortization and any accumulated impairment losses (see related accounting policy under 2.13.5 *Impairment of Nonfinancial Assets*).

Goodwill

The Group initially measures goodwill acquired in a business combination at cost. With respect to investments in an associate, the Group includes goodwill in the carrying amount of the investments. Goodwill is not amortized, but is tested for impairment annually or more frequently if events or changes in circumstances that the carrying value may be impaired (see related accounting policy under 2.13.5 *Impairment of Nonfinancial Assets*).

2.13.4 Derecognition of Nonfinancial Assets

The Group derecognizes a nonfinancial asset when it has either been disposed of or when the asset is permanently withdrawn from use and no future benefit is expected from its disposal. The Group recognizes any gains or losses on the disposal of a nonfinancial asset in the statement of income under 'Net gains (losses) on sale or exchange of assets' in the period the asset is derecognized.

2.13.5 Impairment of Nonfinancial Assets

Property and equipment, investment properties, intangible assets with finite lives, chattel mortgage properties, and investments in subsidiaries and an associate

At each reporting date, the Group assesses whether there is any indication that its property and equipment, investment properties, intangible assets with finite lives, chattel mortgage properties, and investments in subsidiaries and an associate may be impaired. When an indicator of impairment exists, the Group makes a formal estimate of recoverable amount. Recoverable amount is the higher of an asset's fair value less costs to sell and its value-in-use (VIU) and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is assessed as part of the cash-generating unit (CGU) to which it belongs.

When the carrying amount of an asset exceeds its recoverable amount, the Group considers the asset as impaired and writes the asset down to its recoverable amount. In assessing VIU, the Group discounts the estimated future cash flows to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

The Group charges the impairment loss against current operations. At each reporting date, the Group assesses whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the recoverable amount and reverses a previously recognized impairment loss only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal recognized in the statement of income cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. After such reversal, the Group adjusts the depreciation and amortization in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining life.

Goodwill

The Group performs its annual impairment test of goodwill every fourth quarter, or more frequently if events or changes in circumstances indicate that the carrying value may be impaired.

The Group determines impairment for goodwill by assessing the recoverable amount of the CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU (or group of CGUs) is less than the carrying amount of the CGU (or group of CGUs) to which goodwill has been allocated (or to the aggregate carrying amount of a group of CGUs to which the goodwill relates but cannot be allocated), the Group recognizes an impairment loss immediately in the statement of income under 'Impairment in value of goodwill'. Impairment losses relating to goodwill cannot be reversed for subsequent increases in its recoverable amount in future periods.

2.14 Equity

2.14.1 Capital Stock

The Group measures capital stock at par value for all shares issued and outstanding. When the shares are sold at a premium, the Group credits the difference between the proceeds and the par value to 'Capital paid in excess of par value'. 'Surplus' represents accumulated earnings (losses) of the Group less dividends declared.

2.14.2 Reserves Recorded in Equity

The reserves recorded in equity in the statement of financial position include:

- Remeasurement losses on retirement plan – pertains to the remeasurement comprising actuarial gains or losses on the present value of the defined benefit obligation, net of return on plan assets (see related accounting policy under 2.17.1 *Retirement Under Defined Benefit Plan*).
- Accumulated translation adjustment – used to record exchange differences arising from the translation of the FCDU accounts and foreign operations (i.e., overseas branches and subsidiaries) to Philippine peso (see related accounting policy under 2.5.2 *FCDU and Overseas Branches and Subsidiaries*).
- Net unrealized gains (losses) on financial assets at FVOCI – comprises changes in fair value of financial assets at FVOCI (see related accounting policy under 2.11.2 *Classification and Subsequent Measurement of Financial Instruments*).

2.14.3 Dividends

The Group recognizes dividends on common shares as a liability and deduction against 'Surplus' when approved by the Board of Directors (BOD) of the Parent Company. The Group measures the liability to distribute dividends at the carrying amount of the dividends, except for distributions of non-cash assets where the Group measures the liability at the fair value of the assets to be distributed. At the end of each reporting period and at the date of settlement, the Group reviews and adjusts the carrying amount of the non-cash assets declared as dividends, with any changes in the carrying amount of the non-cash dividends recognized in equity as adjustments to the amount of distribution.

For dividends that are approved after the reporting date, the Group discloses them in the financial statements as an event after the reporting date.

2.14.4 Share Issuance Costs

For underwriting, share registration, and other share issuance costs and taxes incurred in connection with the issuance of equity securities, the Group accounts for these costs as reduction of equity against 'Capital paid in excess of par value'. If the 'Capital paid in excess of par value' is not sufficient, the share issuance costs are charged against the 'Surplus'. For transaction costs that relate jointly to the offering and listing of the shares, the Group allocates the costs to those transactions (i.e., reduction against equity for those allocated to offering of shares, and expensed for those allocated to listing of shares) using a basis of allocation that is rational and consistent with similar transactions.

2.15 Revenue Recognition

Revenue is recognized upon transfer of services to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those services. The Group assesses its revenue arrangements against specific criteria in order to determine if it is acting as

principal or agent. The Group has concluded that it is acting as a principal in all of its revenue arrangements except for brokerage transactions.

2.15.1 Interest Income

Interest on interest-bearing financial assets at FVTPL and held-for-trading investments is recognized based on contractual rate. Interest on financial instruments measured at amortized cost and FVOCI are recognized based on effective interest method of accounting to calculate the amortized cost of a financial asset or a financial liability and allocate the interest income or interest expense.

The Group records interest income using the EIR, which is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or financial liability. In calculating EIR, the Group considers all contractual terms of the financial instrument (for example, prepayment options), and includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the EIR, but not future credit losses. The Group adjusts the carrying amount of the financial instrument through 'Interest income' in the statement of income based on the original EIR.

When a financial asset becomes credit-impaired and is, therefore, regarded as Stage 3, the Group calculates interest income by applying the EIR to the net amortized cost of the financial asset. If the financial asset cures and is no longer credit-impaired, the Group reverts to calculating interest income on a gross basis.

The Group defers the commitment fees for loans that are likely to be drawn down (together with any incremental costs) and includes them as part of the EIR of the loan. These are amortized using EIR and recognized as 'Interest income' over the expected life of the loan.

The Group recognizes income on direct financing leases and receivables financed using the effective interest method and any unearned discounts are shown as deduction against 'Loans and receivables'. Unearned discounts are amortized over the term of the note or lease using the effective interest method and consist of:

- transaction and finance fees on finance leases and loans and receivables financed with long-term maturities; and
- excess of the aggregate lease rentals plus the estimated residual value of the leased equipment over its cost.

2.15.2 Service Fees and Commission Income

The Group earns fee and commission income from diverse range of services it provides to its customers:

Fees from services that are provided over a certain period of time

The Group accrues fees earned for the provision of services over a period of time. These fees include investment fund fees, custodian fees, fiduciary fees, credit-related fees, trust fees, portfolio and other management fees, and advisory fees.

Bancassurance fees

The Group recognizes non-refundable access fees on a straight-line basis over the term of the period of the provision of the access. Milestone fees or variable and fixed earn-out fees are recognized in reference to the stage of achievement of the milestones.

Fee income from providing transaction services

The Group recognizes the fees arising from negotiating or participating in the negotiation of a transaction for a third party, such as the arrangement of the acquisition of shares or other securities or the purchase or sale of businesses, only upon completion of the underlying transaction. For fees or components of fees that are linked to a certain performance, the Group recognizes revenue after fulfilling the corresponding criteria. These fees include underwriting fees, corporate finance fees, remittance fees, brokerage fees, commissions, deposit-related and other credit-related fees.

The Group recognizes loan syndication fees as revenue when the syndication has been completed and the Group retains no part of the loans for itself or retains part at the same EIR as the other participants.

2.15.3 Credit Card Fees

Interchange fees and revenue from rewards redeemed

The Group takes up as income the interchange fees under 'Service fees and commission income' upon receipt from member establishments of charges arising from credit availments by the Group's cardholders. These discounts are computed based on certain agreed rates and are deducted from amounts remitted to the member establishments.

The Group operates a loyalty points program which allows customers to accumulate points when they purchase from member establishments using the issued card of the Group. The points can then be redeemed for free products subject to a minimum number of points being redeemed.

The Group allocates a portion of the consideration received from discounts earned and interchange fees from credit cards to the reward points based on the estimated stand-alone selling prices. The Group defers the amount allocated to the loyalty program and recognizes revenue only when the loyalty points are redeemed or the likelihood of the credit cardholder redeeming the loyalty points becomes remote. The Group includes the deferred balance under 'Other liabilities' in the statement of financial position.

Commissions on credit cards

The Group recognizes commissions earned as revenue upon receipt from member establishments of charges arising from credit availments by credit cardholders. These commissions are computed based on certain agreed rates and are deducted from amounts remittable to member establishments.

Commissions on installment credit sales

The Group records the purchases by the credit cardholders, collectible on installment basis, at the cost of the items purchased plus certain percentage of cost. The Group recognizes the excess over cost as 'Unearned and other deferred income', which is shown as a deduction from 'Loans and receivables' in the statement of financial position. The Group amortizes and recognizes as 'Interest income' the unearned and other deferred income over the installment terms using the effective interest method.

2.15.4 Trading and Investment Securities Gains - Net

The Group recognizes in 'Trading and investment securities gains - net' the results arising from trading activities, all gains and losses from changes in fair value of financial assets and financial liabilities at FVTPL, and gains and losses from disposal of debt securities at FVOCI.

2.15.5 Gain on Sale or Exchange of Assets

The Group recognizes gain on sale or exchange of assets upon completion of the earning process upon transfer of control and when the collectability of the sales price is reasonably assured.

2.15.6 Other Income

Rental income

The Group accounts for rental income arising on leased properties on a straight-line basis over the lease terms, which is recorded in the statement of income under 'Miscellaneous income' (see related accounting policy under 2.18.2 *Group as a Lessor Under Lease Contracts*).

Dividend income

The Group recognizes dividend income when the Group's right to receive payment is established.

Insurance premiums and commissions on reinsurance

Gross insurance written premiums comprise the total premiums receivable for the whole period of cover provided by contracts entered into during the accounting period. Premiums include any adjustments arising in the accounting period for premiums receivable in respect of business written in prior periods. The Group recognizes premiums from short-duration insurance contracts and reinsurance commissions as revenue over the period of the contracts using the 24th method, except for marine cargo where the provision for unearned premiums pertain to the premiums for the last two months of the year. The Group recognizes in the statement of income for the period the net changes in provisions for unearned premiums and deferred reinsurance premiums.

2.16 Expenditures

2.16.1 Borrowing Costs

The Group recognizes borrowing costs as 'Interest expense' in the year in which these costs are incurred. Borrowing costs consist of interest expense calculated using the effective interest method that the Group incurs in connection with deposit-taking activities and borrowing of funds.

2.16.2 Operating Expenses

This encompasses those expenses that arise in the course of the ordinary activities of the Group, as well as any losses incurred. These are recognized in the statement of income as they are incurred.

2.16.3 Taxes and Licenses

This includes all other taxes, local and national, including gross receipts taxes, documentary stamp taxes, real estate taxes, licenses and permit fees that are recognized when incurred.

2.16.4 Depreciation and Amortization

The Group computes for depreciation and amortization of depreciable assets using the straight-line method over the estimated useful lives of the respective assets. The estimated useful lives of the depreciable assets follow:

	Years
Property and equipment:	
Buildings	25 - 50
Right-of-use assets	1 - 25 or the lease term, whichever is shorter (provided that lease term is more than one year)
Furniture, fixtures and equipment	5
Long-term leasehold land	46 - 50
Leasehold improvements	10 or the lease term, whichever is shorter
Investment properties	10 - 25
Chattel mortgage properties	5
Intangible assets with finite lives:	
Software costs	5
CDI	10
CRI	3

The Group reviews periodically the useful life and the depreciation and amortization method to ensure that these are consistent with the expected pattern of economic benefits from the depreciable assets. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the depreciation and amortization period or method, as appropriate, and are treated as changes in accounting estimates.

2.16.5 Expenditures on Nonfinancial Assets

The Group charges against current operations the expenditures incurred after the nonfinancial assets (i.e., property and equipment, investment properties, software costs, and chattel mortgage properties) have been put into operation, such as repairs and maintenance. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of these nonfinancial assets beyond their originally assessed standard of performance, the Group capitalizes such expenditures as additional cost.

2.17 Employee Benefits

2.17.1 Retirement Under Defined Benefit Plan

At the end of the reporting period, the Group determines its net defined benefit liability (or asset) as the difference between the present value of the defined benefit obligation and the fair value of plan assets, adjusted for any effect of asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan. The cost of providing benefits under the defined benefit plan is actuarially determined using the projected unit credit method.

Defined benefit costs recognized in the statement of income consist of the following:

- service costs – include current service costs, past service costs (recognized when plan amendment or curtailment occurs) and gains or losses on non-routine settlements; and
- net interest on the net defined benefit liability or asset – pertains to the change during the period in the net defined benefit liability (or asset) that arises from the passage of time, which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset.

Changes in the net defined benefit liability (or asset) also include remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling, excluding net interest on defined benefit liability (or asset). The Group recognizes these remeasurements immediately in OCI in the period in which they arise. The Group does not reclassify these remeasurements to profit or loss in subsequent periods.

Plan assets are assets that are held by a long-term employee benefit fund or qualifying insurance policies, and are not available to the creditors of the Group, nor can they be paid directly to the Group. Fair value of plan assets is based on market price information. When no market price is available, the Group estimates the fair value of plan assets by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations).

The Group recognizes its right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation as a separate asset at fair value when and only when reimbursement is virtually certain.

2.17.2 Employee Leave Entitlement

The Group recognizes entitlements of employees to annual leave as a liability when they are accrued to the employees. The Group recognizes the undiscounted liability for leave expected to be settled wholly before 12 months after the end of the reporting period for services rendered by employees up to the end of the reporting period. For leave entitlements expected to be settled for more than 12 months after the reporting date, the Group engages an actuary to estimate the long-term liability, which is reported in 'Accrued taxes, interest and other expenses' in the statement of financial position.

2.18 Leases

The Group determines at contract inception whether a contract is, or contains, a lease by assessing whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

2.18.1 Group as a Lessee Under Lease Contracts

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes right-of-use assets representing the right to use the underlying assets and lease liabilities to make lease payments.

- Right-of-use assets
At the commencement date of the lease (i.e, the date the underlying asset is available for use), the Group recognizes right-of-use assets measured at cost. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made

at or before the commencement date less any lease incentives received. Subsequent to initial recognition, the Group measures the right-of-use assets at cost less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

The Group presents the right-of-use assets in 'Property and equipment' and subjects it to impairment in line with the Group's policy on impairment of nonfinancial assets (see related accounting policy under 2.13.5 *Impairment of Nonfinancial Assets*).

- Lease liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term discounted using the Group's incremental borrowing rate, which is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The lease payments include fixed payments, any variable lease payments that depend on an index or a rate, and any amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses in the period in which the event or condition that triggers the payment occurs.

After the commencement date of the lease, the Group measures the lease liabilities by increasing the carrying amount to reflect interest on the lease liabilities (recorded in 'Interest expense on bills payable and other borrowings'), reducing the carrying amount to reflect the lease payments made, and remeasuring the carrying amount to reflect any reassessment or lease modifications, or to reflect revised in-substance fixed lease payments.

- Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option, and the leases of low-value assets recognition exemption to its leases of ATM offsite locations and other equipment that are considered of low value (i.e., below ₱250,000). Lease payments on short-term leases and leases of low-value assets are recognized as expense under 'Occupancy and equipment-related costs' on a straight-line basis over the lease term.

2.18.2 Group as a Lessor Under Lease Contracts

For finance leases where the Group transfers substantially all the risks and rewards incidental to ownership of the leased item, the Group recognizes a lease receivable in the statement of financial position at an amount equivalent to the net investment (asset cost) in the lease. The Group includes all income resulting from the receivable in 'Interest income on loans and receivables' in the statement of income.

The residual value of leased assets, which approximates the amount of guaranty deposit paid by the lessee at the inception of the lease, is the estimated proceeds from the sale of the leased asset at the end of the lease term. At the end of the lease term, the residual value of the leased asset is generally applied against the guaranty deposit of the lessee when the lessee decides to buy the leased asset.

In operating leases where the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset, the Group recognizes rental income on a straight-line basis over the lease terms. The Group adds back the initial direct costs incurred in negotiating and arranging an operating lease to the carrying amount of the leased asset and recognizes them as rental income over the lease

term on the same basis. The Group recognizes contingent rents as revenue in the period in which they are earned.

2.19 Provisions

The Group recognizes provisions when:

- the Group has a present obligation (legal or constructive) as a result of a past event;
- it is probable that an outflow of assets embodying economic benefits will be required to settle the obligation; and
- a reliable estimate can be made of the amount of the obligation.

When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the Group recognizes the reimbursement as a separate asset but only when the reimbursement is virtually certain. The Group presents the expense relating to any provision in the statement of income, net of any reimbursement.

If the effect of the time value of money is material, the Group determines provisions by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. When discounting is used, the Group recognizes the increase in the provision due to the passage as 'Interest expense on bills payable and other borrowings'.

2.20 Contingencies

Contingent liabilities are not recognized in the financial statements but are disclosed unless the possibility of an outflow of assets embodying economic benefits is remote. Contingent assets are not recognized but are disclosed in the financial statements when an inflow of economic benefits is probable.

2.21 Income Taxes

Income tax on profit and loss for the year comprises current and deferred tax. Income tax is determined in accordance with tax laws and is recognized in the statement of income, except to the extent that it relates to items directly recognized in OCI.

2.21.1 Current Tax

The Group measures current tax assets and liabilities for the current periods at the amount expected to be recovered from or paid to the taxation authorities using the tax rates and tax laws that are enacted or substantively enacted at the reporting date.

2.21.2 Deferred Tax

The Group provides for deferred tax using the balance sheet liability method on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

The Group recognizes deferred tax liabilities for all taxable temporary differences, including asset revaluations. The Group recognizes deferred tax assets for all deductible temporary differences, carryforward of unused tax credits from the excess of minimum corporate income tax (MCIT) over the regular corporate income tax (RCIT), and unused net operating loss carryover (NOLCO), to the extent that it is probable that sufficient taxable income will be available against which the deductible temporary differences and carryforward of unused tax credits from MCIT and unused NOLCO can be utilized.

The Group, however, does not recognize deferred tax on temporary differences that arise from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income. The Group does not also provide deferred tax liabilities on non-taxable temporary differences associated with investments in domestic subsidiaries and an associate. With respect to investments in foreign subsidiaries, the Group does not recognize deferred tax liabilities, except where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The Group reviews the carrying amount of deferred tax assets at each reporting date and reduces the recognized amount to the extent that it is no longer probable that sufficient future taxable income will be available to allow all or part of the deferred income tax asset to be utilized. The Group reassesses unrecognized deferred tax assets at each reporting date and recognizes amounts to the extent that it has become probable that future taxable income will allow the deferred tax asset to be recovered.

The Group measures deferred tax assets and liabilities at the tax rates that are applicable to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

For current and deferred tax relating to items recognized directly in OCI, the Group recognizes them also in OCI and not in the statement of income.

In the consolidated financial statements, the Group offsets deferred tax assets and liabilities if a legally enforceable right exists to set off current tax assets against current tax liabilities and deferred taxes related to the same taxable entity and the same taxation authority.

When tax treatments involve uncertainty, the Group determines whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments and uses the approach that better predicts the resolution of the uncertainty. If the Group concludes that it is not probable that the taxation authority will accept an uncertain tax treatment, the Group reflects the effect of the uncertainty for each uncertain tax treatment using the method the Group expects to better predict the resolution of the uncertainty.

2.22 Earnings Per Share

The Group computes for the basic earnings per share (EPS) by dividing net income for the period attributable to common shareholders by the weighted average number of common shares outstanding during the period, after giving retroactive effect to any bonus issue, share split or reverse share split during the period.

The Group computes for the diluted EPS by dividing the aggregate of net income for the period attributable to common shareholders by the weighted average number of common shares outstanding during the period, adjusted for the effects of any dilutive shares.

2.23 Related Party Transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. The Group's related parties include:

- key management personnel, close family members of key management personnel and entities which are controlled, significantly influenced by or for which significant voting power is held by key management personnel or their close family members;
- significant investors and their subsidiaries and associates called affiliates;
- subsidiaries, joint ventures and associates and their respective subsidiaries; and
- post-employment benefit plans for the benefit of the Group's employees.

2.24 Events After the Reporting Date

The Group reflects in the financial statements any post-year-end event that provides additional information about the Group's position at the reporting date (adjusting event). The Group discloses post-year-end events that are not adjusting events, if any, when material to the financial statements.

2.25 Segment Reporting

The Group's operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. Refer to Note 6 for the detailed disclosure on segment information.

2.26 Fiduciary Activities

The Group excludes from these financial statements the assets and income arising from fiduciary activities, together with related undertakings to return such assets to customers, where the Group acts in a fiduciary capacity such as nominee, trustee or agent.

2.27 Changes in Accounting Standards

Listed below are accounting standards and interpretations issued but not yet effective up to the date of issuance of the Group's financial statements. The Group intends to adopt these standards when they become effective. Except as otherwise indicated, the Group does not expect the adoption of these new and amended standards and interpretations to have significant impact on the financial statements.

Effective beginning on or after January 1, 2024

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current*
The amendments clarify:
 - That only covenants with which an entity must comply on or before the reporting date will affect a liability's classification as current or non-current;
 - That classification is unaffected by the likelihood that an entity will exercise its deferral right; and
 - That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.

The amendments are effective for annual reporting periods beginning on or after January 1, 2024 and must be applied retrospectively. The Group is currently assessing the impact the amendments will have on its current practice and whether existing loan agreements may require renegotiation.

- Amendments to PAS 7, *Statement of Cash Flows*, and PFRS 7, *Financial Instruments: Disclosures – Supplier Finance Arrangements*

The amendments clarify the characteristics of supplier finance arrangements and require additional disclosure of such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

The amendments are effective for annual reporting periods beginning on or after January 1, 2024. Early adoption is permitted, but will need to be disclosed.

- Replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies; and
- Adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments to the Practice Statement provide non-mandatory guidance. Early adoption of the amendments is permitted as long as this fact is disclosed.

- Amendments to PFRS 16, *Lease Liability in a Sale and Leaseback*

The amendments specify how a seller-lessee measures the lease liability arising in a sale and leaseback transaction in a way that it does not recognize any amount of the gain or loss that relates to the right-of-use retained. The amendments are effective for annual reporting periods beginning on or after January 1, 2024 and must be applied retrospectively. Earlier adoption is permitted and that fact must be disclosed.

Effective beginning on or after January 1, 2025

- PFRS 17, *Insurance Contracts*

PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, *Insurance Contracts*. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply. The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects.

On December 15, 2021, the Philippine Financial and Sustainability Reporting Standards Council (FSRSC) amended the mandatory effective date of PFRS 17 from January 1, 2023 to January 1, 2025. This is consistent with Circular Letter No. 2020-62 issued by the Insurance Commission which deferred the implementation of PFRS 17 by two years after its effective date as decided by the International Accounting Standards Board (IASB).

PFRS 17 is effective for reporting periods beginning on or after January 1, 2025, with comparative figures required. Early application is permitted.

Deferred effectivity

- PFRS 10, *Consolidated Financial Statements*, and PAS 28: *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture* (Amendments)

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the FSRSC postponed the original effective date of January 1, 2016 of the said amendments until the IASB has completed its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

3. Significant Accounting Judgments and Estimates

The preparation of the financial statements in compliance with PFRS requires the Group to make judgments and estimates that affect the reported amounts and disclosures. The Group continually evaluates judgments and estimates and uses as basis its historical experience and other factors, including expectations of future events. The Group reflects the effects of any changes in estimates in the financial statements as they become reasonably determinable.

3.1 Judgments

3.1.1 Assessment of Control Over a Subsidiary

The Group demonstrates control over an investee when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Thus, the following elements must all be present to exercise control over an investee:

- Power over the investee
- Exposure, or rights, to variable returns from its involvement with the investee
- The ability to use its power over the investee to affect the amount of the investor's returns

The Group considers all facts and circumstances when assessing whether it controls an investee.

In making this assessment, the Group considers the following factors:

- The purpose and design of the investee
- What the relevant activities are and how decisions about those activities are made
- Whether the rights of the Group give it the current ability to direct the relevant activities
- Whether the Group is exposed, or has rights, to variable returns from its involvement with the investee
- Whether the Group has the ability to use its power over the investee to affect the amount of the investor's returns

The assessment of the Group on its control over a subsidiary is further discussed in Note 12.

3.1.2 Assessment of Significant Influence Over an Associate

The Group generally accounts for an investment as an associate when the Group holds 20% or more of the voting power of the investee company held directly or indirectly through subsidiaries, unless it can be clearly demonstrated that this is not the case.

In assessing whether the Group exercises significant influence over an investee company, the Group considers the following factors:

- Representation in the BOD or equivalent governing body of the investee company
- Participation in policy-making processes, including participation in decisions about dividends and other distributions
- Material transactions between the Group and the investee company
- Interchange of management personnel
- Provision of essential technical performance

The assessment of the Group on its significant influence over an investee company is further discussed in Note 12.

3.1.3 Classification of Financial Assets

The Group classifies its financial assets depending on the results of the SPPI test and on the business model used for managing those financial assets.

When performing the SPPI test, the Group applies judgment and evaluates relevant factors and characteristics such as the behavior and nature of contractual cash flows, its original currency denomination, the timing and frequency of interest rate repricing, contingent events that would alter the amount and/or timing of cash flows, leverage features, prepayment or extension options and other features that may modify the consideration for the time value of money.

As a second step, the Group performs business model assessment to reflect how financial assets are managed in order to generate net cash inflows based on the following factors:

- business objectives and strategies for holding the financial assets;
- performance measures and benchmarks being used to evaluate the Group's key management personnel accountable to the financial assets;
- risks associated to the financial assets and the tools applied in managing those risks;
- compensation structure of business units, including whether based on fair value changes of the investments managed or on the generated cash flows from transactions; and
- frequency and timing of disposals.

In applying judgment, the Group also considers the circumstances surrounding the transaction as well as the prudential requirements of the BSP.

3.1.4 Fair Valuation of Financial Instruments

When the fair values of financial assets and financial liabilities recorded in the statement of financial position cannot be derived from active markets, the Group uses valuation techniques and mathematical models. The Group derives the inputs to these models from observable markets where possible, otherwise, a degree of judgment is required in establishing fair values. The judgments include considerations of liquidity and model inputs such as correlation and volatility for longer-dated derivatives. For the valuation of nonmarketable unquoted equity securities, the Group considers a

discount for lack of marketability, which is applied to the values determined by an independent valuation company (refer to Note 5 for the fair values of financial instruments).

3.1.5 Contingencies

The Group is currently involved in legal proceedings. The estimate of the probable cost for the resolution of claims has been developed in consultation with the aid of the outside legal counsels handling the Group's defense in these matters and is based upon an analysis of potential results. Management does not believe that the outcome of these matters will affect the results of operations. It is probable, however, that future results of operations could be materially affected by changes in the estimates or in the effectiveness of the strategies relating to the proceedings (refer to Note 34).

3.2 Accounting Estimates

3.2.1 Credit Losses on Financial Assets

The Group's ECL calculations are mainly derived from outputs of complex statistical models and expert judgment, with a number of underlying assumptions regarding the choice of variable inputs as well as their independencies. The Group considers the following elements of the ECL models, among others, as significant accounting judgments and estimates:

- segmentation of the portfolio, where the appropriate ECL approach and/or model is used, including whether assessments should be done individually or collectively;
- quantitative and qualitative criteria for determining whether there has been SICR as at a given reporting date and the corresponding transfers between stages;
- determination of expected life of the financial asset and expected recoveries from defaulted accounts;
- development of ECL models, including the various formulas and the choice of inputs;
- determination of correlations and interdependencies between risk factors, macroeconomic scenarios and economic inputs, such as inflation, policy rates and collateral values, and the resulting impact to PDs, LGDs and EADs; and
- selection of forward-looking information and determination of probability-weightings to derive the ECL.

In response to the changing credit environment due to the rising interest rates, inflation, and other 'black swan' events (such as geopolitical tensions and extreme El Niño phenomenon and other climate conditions) which may potentially occur, the Group reviews on a monthly basis its loan portfolio, particularly for accounts that have shown or are beginning to show increases in credit risk. The Group performs comprehensive review of the default profile of its accounts to determine if there are factors or indicators not captured in the risk rating model. If there are noted weaknesses in the model, where possible, the Group recalibrates the parameter estimates to the ECL models to incorporate internal default experience, as well as most recent available external data affecting each segment of the Group's loan portfolio.

The Group revisits the segmentation of its portfolio based on industry vulnerability and resiliency assessment. The Group also reassesses the framework for macroeconomic overlay, incorporating stress scenarios to ensure that changes in economic conditions are captured in the ECL calculations.

Refer to Note 16 for the details of the carrying values of financial assets subject to ECL and for the details of the ECL.

3.2.2 Recognition of Deferred Tax Assets

Deferred tax assets are recognized for all unused tax losses and temporary differences to the extent that it is probable that future taxable profit will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the availability of future taxable income in reference to financial forecast and tax strategies. The Group takes into consideration the loan portfolio and deposit growth rates in assessing its taxable income forecast.

The Group reassesses its business plan, as well as tax strategies, in the next three to five years, considering various economic scenarios including recovery outlook and effects on specific industries of the rising interest rates, inflation, and other ‘black swan’ events (see further discussion of these events under 3.2.1 *Credit Losses on Financial Assets*).

Refer to Note 30.3 for the carrying amount of recognized and unrecognized deferred tax assets.

3.2.3 Impairment of Goodwill

The Group conducts an annual review for any impairment in the value of goodwill. Goodwill is written down for impairment where the recoverable amount is insufficient to support its carrying value. The recoverable amount of the CGU is determined based on a VIU calculation, which considers the present value of cash flow projections from financial budgets approved by senior management and BOD of the Parent Company covering a three-year period. The assumptions used in the calculation of VIU are sensitive to estimates of future cash flows from business, interest margins, discount rates, projected long-term growth rates (derived based on the forecast local gross domestic product) used to extrapolate cash flows beyond the budget period.

Estimating future earnings involves judgment which takes into account past and actual performance and expected developments in the respective markets and in the overall macro-economic environment. Similar with its considerations discussed under 3.2.2 *Recognition of Deferred Tax Assets*, the Group revisits its business plan and applies judgment to reassess the projections of future cash flows as of December 31, 2023, considering various economic scenarios and recovery outlook.

The carrying values of the Group’s goodwill, accumulated impairment losses, and key assumptions used in determining VIU are disclosed in Note 14.3.

4. Financial Risk Management Objectives and Policies

The Parent Company’s BOD has overall responsibility for the establishment and oversight of the Group’s risk management framework. As delegated by the BOD, the Risk Oversight Committee (ROC) is mandated to set risk appetite, approve frameworks, policies and processes for managing risk, and accept risks beyond the approval discretion provided to management. The ROC advises on the overall current and future risk appetite and strategy and assists in overseeing the implementation of those strategies and business plans by senior management. Details of the Parent Company’s risk framework are discussed under the Risk Management Disclosure Section of the Parent Company’s annual report.

The Group’s activities are principally related to the development, delivery, servicing and use of lending and financial instruments. Risk is inherent in these activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Group’s continuing profitability.

The Group defines material risks (at group level) as those risks from any business activity to significantly threaten the Bank's capital position to drop below its desired level; resulting in either an increase in risk-weighted assets or a reduction in earnings and/or qualifying capital which translate into a reduction in CAR by 20 basis points (bps).

On the other hand, risks that will potentially have an impact to the CAR by less than 20 bps will also be considered "material" by the Group if these fall under the following:

- Pillar 1 risks, i.e., Credit, Market, and Operational Risks;
- Other risks under BSP Cir. No. 510, i.e., Interest Rate Risk in the Banking Book (IRRBB), Liquidity Risk, Reputational Risk and Strategic Business Risk;
- Information Technology Risk (BSP Cir. No. 808);
- Information Security / Cyber Security Risk (BSP Cir. No. 982) and
- Further risks identified as "material" by the Board and Management Committee such as Data Privacy Risk and Human Resource Risk.

Resulting from the assessments based on the premise identified above, the Bank agrees on and reviews on a regular basis the material risks that need focus using the three lines model. For the assessment period 2023-2025, these are based on the following eleven (11) material risks which are grouped under Pillar 1 and Pillar 2 risks covered in the Bank's Internal Capital Adequacy Assessment Process (ICAAP) Document submission to BSP, and required for monitoring.

Types and definition of each of these risks are discussed hereunder:

Pillar 1 Risks:

1. Credit Risk (includes Counterparty and Country Risks)
2. Market Risk
3. Operational Risk

Pillar 2 Risks:

4. Credit Concentration Risk
5. Interest Rate Risk in the Banking Book (IRRBB)
6. Liquidity Risk
7. Reputational Risk
8. Strategic Business Risk
9. Information Security / Cyber Security / Data Privacy Risk
10. Information Technology
11. Human Resource Risk

The Risk Management Group (RMG) provides support for the ROC in its role of formulating the risk management strategy, the development and maintenance of the internal risk management framework, and the definition of the governing risk management principles. The RMG provides assistance to the Asset/Liability Committee (ALCO) on capital management and the Board Strategy and Policy Committee on the management of regulatory capital.

The mandate of the RMG involves:

- Implementing the risk management framework of identifying, measuring, controlling and monitoring the various risk-taking activities of the Group, inherent in all financial institutions;
- Providing services to the risk-taking units and personnel in the implementation of risk mitigation strategies; and
- Establishing recommended limits based on the results of its analysis of exposures.

4.2 Credit Risk

Credit risk is the non-recovery of credit exposures (on-and-off balance sheet exposures). Managing credit risk also involves monitoring of migration risk, concentration risk, country risk and settlement risk. The Group manages its credit risk at various levels (i.e., strategic level, portfolio level down to individual transaction).

The credit risk management of the entire loan portfolio is under the direct oversight of the ROC and Executive Committee. Credit risk assessment of individual borrower is performed by the business sector, remedial management group and credit management group. Risk management is embedded in the entire credit process, i.e., from credit origination to remedial management, as applicable.

Among the tools used by the Group in identifying, assessing and managing credit risk include:

- Documented credit policies and procedures: sound credit granting process, risk asset acceptance criteria, target market and approving authorities;
- System for administration and monitoring of exposure;
- Post approval review of implemented loans;
- Work out system for managing problem credits;
- Regular review of the sufficiency of valuation reserves;
- Monitoring of adequacy of capital for credit risk via the Capital Adequacy Ratio (CAR) report;
- Monitoring of breaches in regulatory and internal limits;
- Credit risk management monitoring and reporting;
- Diversification;
- Internal risk rating system for corporate accounts;
- Credit scoring for retail accounts; and
- Active loan portfolio management undertaken to determine the quality of the loan portfolio and identify: portfolio growth, movement of loan portfolio, adequacy of loan loss reserves, trend of nonperforming loans (NPLs), and concentration risk (per classified account, per industry, clean exposure, large exposure, contingent exposure, currency, security, facility, demographic, etc.)

The Group follows the BOD-approved policy on the generic classification of loans based on the type of borrowers and the purpose of the loan. The loan portfolio is grouped based on the underlying risk characteristics that are expected to respond in a similar manner to macroeconomic factors and forward-looking conditions.

4.2.1 Credit-Related Commitments

The exposures represent guarantees, standby letters of credit (LCs) issued by the Parent Company and documentary/commercial LCs which are written undertakings by the Parent Company. To mitigate this risk, the Parent Company requires hard collaterals for standby LC lines while commercial LCs are collateralized by the underlying shipments of goods to which they relate.

4.2.2 Derivative Financial Instruments

Credit risk arising from derivative financial instruments is, at any time, limited to those with positive fair values, as recorded in the statement of financial position.

4.2.3 Collateral and Other Credit Enhancements

As a general rule, character is the single most important consideration in granting loans. However, collaterals are requested to mitigate risk. The loan value and type of collateral required depend on the assessment of the credit risk of the borrower or counterparty. The Group follows guidelines on the acceptability of types of collateral and valuation parameters.

The main types of collateral obtained are as follows:

- For corporate accounts - deposit hold-outs, guarantees, securities, physical collaterals (e.g., real estate, chattels, inventory, etc.); generally, commercial, industrial and residential lots are preferred
- For retail lending - mortgages on residential properties and vehicles financed
- For securities lending and reverse repurchase transactions - cash or securities

The disposal of the foreclosed properties is handled by the Acquired Assets Management Group which adheres to the general policy of disposing assets at the highest possible market value.

Management regularly monitors the market value of the collateral and requests additional collateral in accordance with the underlying agreement. The existing market value of the collateral is considered during the review of the adequacy of the allowance for credit losses. Generally, collateral is not held over loans and advances to banks except for reverse repurchase agreements. The Group is not permitted to sell or repledge the collateral held over loans and advances to counterparty banks and BSP in the absence of default by the owner of the collateral.

4.2.4 Maximum Exposure to Credit Risk After Collateral Held or Other Credit Enhancements

An analysis of the maximum exposure to credit risk after taking into account any collateral held or other credit enhancements for the Group and the Parent Company is shown below:

	Consolidated			
	2023			
	Maximum Exposure	Fair Value of Collateral	Net Exposure	Financial Effect of Collateral
Securities held under agreements to resell	₱69,694,538	₱57,785,321	₱11,909,217	₱57,785,321
Loans and receivables:				
Receivables from customers*:

Others	11,300,587	4,802,742	8,436,552	2,864,035
Other receivables	13,925,800	–	13,925,800	–
	₱642,518,881	₱387,294,706	₱474,955,874	₱167,563,007

The maximum credit risk, without taking into account the fair value of any collateral and netting agreements, is limited to the amounts on the statement of financial position plus commitments to customers such as unused commercial letters of credit, outstanding guarantees and others.

4.2.5 Credit Risk Concentrations

Credit risk concentrations can arise whenever a significant number of borrowers have similar characteristics. The Group analyzes the credit risk concentration to an individual borrower, related group of accounts, industry, geographic, internal rating buckets, currency, term and security. For risk concentration monitoring purposes, the financial assets are broadly categorized into (1) loans and receivables and (2) trading and investment securities. To mitigate risk concentration, the Group constantly checks for breaches in regulatory and internal limits. Clear escalation process and override procedures are in place, whereby any excess in limits are covered by appropriate approving authority to regularize and monitor breaches in limits.

Limit per client or counterparty

For each CRR, the Parent Company sets limits per client or counterparty based on the regulatory Single Borrowers Limit. For trading and investment securities, the Group limits investments to government issues and securities issued by entities with high-quality investment ratings.

Geographic concentration

The table below shows the credit risk exposures, before taking into account any collateral held or other credit enhancements, categorized by geographic location:

Consolidated 2023					
	Loans and receivables*		Trading and investment securities	Other financial assets**	Total
	Amount	%

*Others include the following sectors - Other community, social and personal services, private household, hotel and restaurant, education, mining and quarrying, and health and social work.

**Other financial assets include the following financial assets: 'Due from BSP', 'Due from other banks', 'Interbank loans receivable', 'Securities held under agreements to resell', and other financial assets booked under 'Other assets' (Note 15).

The internal limit of the Parent Company based on the Philippine Standard Industry Classification sub-industry is 12.00% for priority industry, 8.00% for regular industry, 30.00% for power industry and 25.00% for activities of holding companies versus total loan portfolio.

4.2.6 Credit Quality Per Class of Financial Assets

Loans and receivables

The segmentation of the Group's loan portfolio is based on the underlying risk characteristics that are expected to respond in a similar manner to macroeconomic factors and forward-looking conditions.

Generally, the Group's exposures can be categorized as either of the following:

- Non-Retail Portfolio – consists of debt obligations of sovereigns, financial institutions, corporations, partnerships, or proprietorships. In particular, the Group's Non-Retail Portfolio segments are as follows: Sovereigns, Financial Institutions, Specialized Lending (e.g., Project Finance), Large Corporates, Middle Market and Commercial SME, government-owned and controlled corporations and LGUs.
- Retail Portfolio – consists of exposures to individual person/s or to a small business, and are not usually managed on an individual basis but as groups of exposures with similar credit risk characteristics. This includes Credit Cards, Consumer Loans and Retail SME, among others.

The credit quality of the Non-Retail Portfolio is evaluated and monitored using external ratings and internal credit risk rating system. The Parent Company maintains a two-dimensional risk rating structure: that is, there is a borrower risk rating (BRR) and a facility risk rating (FRR).

The Group developed specific borrower rating models to capture specific and unique risk characteristics of each of the Non-Retail Portfolio segments. The BRR is measured based on financial condition of the borrower combined with an assessment of non-financial factors such as management, industry outlook and market competition. The BRR models captures overlays and early warning signals as well. The Group uses a single scale with 26 risk grades for all its BRR models.

The 26-risk grade internal default masterscale is a representation of a common measure of relative default risk associated with the obligors/counterparties. The internal default masterscale is mapped to a global rating scale.

FRR, on the other hand, assesses potential loss of the Group in case of default, which considers collateral type and level of collateralization of the facility. The FRR has 9 grades, i.e. FRR A to FRR I.

The CRR or final credit risk rating shall be expressed in alphanumeric terms, e.g. CRR 1A which is a combination of the general creditworthiness of the borrower (BRR 1) and the potential loss of the Group in the event of the borrower's default (FRR A).

The credit quality and corresponding BRRs of the Group's receivables from customers are defined below:

Credit quality	26-Grade BRR system
High S&P Equivalent Global Rating: AAA to BBB-	<p><i>BRR 1 Excellent</i> Borrower has an exceptionally strong capacity to meet its financial commitments. No existing disruptions or future disruptions are highly unlikely. Probability of going into default in the coming year is very minimal/low.</p> <p><i>BRR 2 Very Strong</i> Borrower has a very strong capacity to meet its financial commitments. No existing disruptions or future disruptions are unlikely. It differs from BRR 1 borrowers only to a small degree. Probability of going into default in the coming year is very minimal/low.</p> <p><i>BRR 3 Strong</i> Borrower has a strong capacity to meet its financial commitments. No existing disruptions or future disruptions are unlikely. However, adverse economic conditions or changing circumstances could lead to somewhat lesser capacity to meet financial obligations than in higher-rated borrowers. Probability of going into default in the coming year is very minimal/low.</p> <p><i>BRR 4-6 Good</i> Borrower has an adequate capacity to meet its financial commitments in the normal course of its business. With identified disruptions from external factors but company has or will likely overcome. Default possibility is minimal/low.</p> <p><i>BRR 7-9 Satisfactory</i> Borrower under this rating scale basically possesses the characteristics of borrowers rated as BRR 4 to BRR 6 with slightly lesser quality. Default possibility is minimal/low.</p> <p><i>BRR 10-12 Adequate</i> Borrower has an adequate capacity to meet its financial commitments under the normal course of business. However, adverse economic conditions and changing circumstances are more likely to weaken the borrower's capacity to meet its financial commitments. Default possibility is minimal/low.</p>
Standard S&P Equivalent Global Rating: BB+ to BB-	<p><i>BRR 13-15 Average</i> Borrower still has the capacity to meet its financial commitments and withstand normal business cycles, however, any prolonged unfavorable economic and/or market conditions would create an immediate deterioration beyond acceptable levels. With identified disruptions from external forces, impact on the borrower is uncertain. Default is a possibility.</p> <p><i>BRR 16-18 Acceptable</i> Borrower under this rating scale basically possesses the characteristics of borrowers rated as BRR 13 to BRR 15 with slightly lesser quality. Default is a possibility.</p> <p><i>BRR 19-20 Vulnerable</i> Borrower is less vulnerable in the near term than other low-rated borrowers. However, it faces major ongoing uncertainties and exposure to adverse business, financial or economic conditions that could lead to the borrower's inadequate capacity to meet its financial commitment. Default is a possibility</p>

Credit quality	26-Grade BRR system
Substandard S&P Equivalent Global Rating: B+ to CCC-	<p><i>BRR 21-22 Weak</i> Borrower is more vulnerable than the borrowers rated BRR 19 and BRR 20 but the borrower currently has the capacity to meet its financial commitments. Adverse business, financial, or economic conditions will likely impair the borrower's capacity or willingness to meet its financial commitments. Default is more than a possibility.</p> <p><i>BRR 23-25 Watchlist</i> Borrower is currently vulnerable and is dependent upon favorable business, financial, and economic conditions to meet its financial commitments. Borrower may already be experiencing losses and impaired capital in the case of BRR 25.</p>
Impaired S&P Equivalent Global Rating: D	<p><i>BRR 26 Default</i> Default will be a general default. Borrower will fail to pay all or substantially all of its obligations as they come due.</p>

For the Retail Portfolio, such as Retail SME, Credit Cards, Housing and Auto Loans, credit scoring is being used in evaluating the creditworthiness of the borrower.

The table below shows the credit quality of the Group's and the Parent Company's receivables from customers, gross of allowance for credit losses and unearned and other deferred income, but net of residual values of leased assets, as of December 31, 2023 and 2022:

Trading and investment securities and other financial assets

In ensuring quality investment portfolio, the Group uses the credit risk rating based on the external ratings of eligible external credit rating institutions (i.e. Moody's Investors Service) as follows:

- Aaa to Aa3 - fixed income are judged to be of high quality and are subject to very low credit risk, but their susceptibility to long-term risks appears somewhat greater.

- A1 to A3 - fixed income obligations are considered upper-medium grade and are subject to low credit risk, but have elements present that suggest a susceptibility to impairment over the long term.
- Baa1 and below - represents those investments which fall under any of the following grade:
 - Baa1, Baa2, Baa3 - fixed income obligations are subject to moderate credit risk. They are considered medium grade and as such protective elements may be lacking or may be characteristically unreliable.
 - Ba1, Ba2, Ba3 - obligations are judged to have speculative elements and are subject to substantial credit risk.
 - B1, B2, B3 - obligations are considered speculative and are subject to high credit risk.
 - Caa1, Caa2, Caa3 - are judged to be of poor standing and are subject to very high credit risk.
 - Ca - are highly speculative and are likely in, or very near, default, with some prospect of recovery of principal and interest.
 - C - are the lowest rated class of bonds and are typically in default, with little prospect for recovery of principal or interest.

Below are the financial assets of the Group and the Parent Company, gross of allowance for credit losses, excluding receivables from customers, which are monitored using external ratings.

4.3 Liquidity Risk and Funding Management

Liquidity risk is generally defined as the current and prospective risk to earnings or capital arising from the Group's inability to meet its obligations when they come due without incurring unacceptable losses or costs.

The Group's liquidity management involves maintaining funding capacity to accommodate fluctuations in asset and liability levels due to changes in the Group's business operations or unanticipated events created by customer behavior or capital market conditions. The Parent Company seeks to ensure liquidity through a combination of active management of liabilities, a liquid asset portfolio composed substantially of deposits in primary and secondary reserves, and the securing of money market lines and the maintenance of repurchase facilities to address any unexpected liquidity situations.

Liquidity risk is monitored and controlled primarily by a gap analysis of maturities of relevant assets and liabilities reflected in the maximum cumulative outflow (MCO) report, as well as an analysis of available liquid assets. The MCO focuses on a 12-month period wherein the 12-month cumulative outflow is compared to the acceptable MCO limit set by the BOD. Furthermore, an internal liquidity ratio has been set to determine sufficiency of liquid assets over deposit liabilities.

Liquidity is monitored by the Parent Company on a daily basis through the Global Markets Group. Likewise, the RMG monitors the static liquidity via the MCO under normal and stressed scenarios.

The table below shows the liquidity information of financial assets and financial liabilities which includes coupon cash flows categorized based on the expected date on which the asset will be realized and the liability will be settled. For other assets, the analysis into maturity grouping is based on the remaining period from the end of the reporting period to the contractual maturity date or if earlier, the expected date the assets will be realized.

4.3.1 BSP Reporting for Liquidity Positions and Leverage

To promote short-term resilience of banks' liquidity risk profile, BSP requires banks and other regulated entities to maintain:

- over a 30-calendar day horizon, an adequate level of unencumbered high-quality liquid assets (HQLA) that consist of cash or assets that can be converted into cash to offset the net cash outflows they could encounter under a liquidity stress scenario; and
- a stable funding profile in relation to the composition of their assets and off-balance sheet activities.

To monitor the liquidity levels, the Group computes for its Liquidity Coverage Ratio (LCR), which is the ratio of HQLA to the total net cash outflows. As of December 31, 2023 and 2022, LCR reported to the BSP with certain adjustments is shown in the table below:

	Consolidated		Parent Company	
	2023	2022	2023	2022
LCR	271.54%	246.25%	295.74%	240.35%

The Group also computes for its Net Stable Funding Ratio (NSFR), which is the ratio of the available stable funding to the required stable funding. Both LCR and NSFR should be maintained no lower than 100.00% on a daily basis under normal situations. As of December 31, 2023 and 2022, NSFR reported to the BSP with certain adjustments is shown in the table below (amounts, except ratios, are expressed in millions):

	Consolidated		Parent Company	
	2023	2022	2023	2022
Available stable funding	₱894,199	₱852,706	₱884,747	₱843,395
Required stable funding	595,019	621,402	597,380	621,765
NSFR	150.28%	137.22%	148.10%	135.65%

4.4 Market Risk

Market risk is the risk to earnings or capital arising from adverse movements in factors that affect the market value of instruments, products, and transactions in an institutions' overall portfolio. Market risk arises from market making, dealing, and position taking in interest rate, foreign exchange and equity markets. The succeeding sections provide discussion on the impact of market risk on the Parent Company's trading and structural portfolios.

4.4.1 Trading Market Risk

Trading market risk exists in the Parent Company as the values of its trading positions are sensitive to changes in market rates such as interest rates, foreign exchange rates and equity prices. The Parent Company is exposed to trading market risk in the course of market making as well as from taking advantage of market opportunities. For internal monitoring of the risks in the trading portfolio, the Parent Company uses the Value at Risk (VaR) as a primary risk measurement tool. It adopts both the Parametric VaR methodology and Historical Simulation Methodology (with 99.00% confidence level) to measure the Parent Company's trading market risk. Both the Parametric models and Historical Simulation models were validated. Volatilities used in the parametric are updated on a daily basis and are based on historical data for a rolling 400-day period while yields and prices in the historical VaR approach are also updated daily. The RMG reports the VaR utilization and breaches to limits to the risk taking personnel on a daily basis and to the ALCO and ROC on a monthly basis. All risk reports discussed in the ROC meeting are noted by the BOD. The VaR figures are back tested to

validate the robustness of the VaR model. Results of backtesting on a rolling one year period are reported also to the ROC.

The parametric VaR models are designed to measure market risk in a normal market environment. The models assume that any changes occurring in the risk factors affecting the normal market environment will follow a normal distribution. The use of VaR has limitations because it is based on historical volatilities in market prices and assumes that future price movements will follow a statistical distribution. Due to the fact that VaR relies heavily on historical data to provide information and may not clearly predict the future changes and modifications of the risk factors, the probability of large market movements may be under-estimated if changes in risk factors fail to align with historical movements. VaR may also be under- or over- estimated due to the assumptions placed on risk factors and the relationship between such factors for specific instruments. Even though positions may change throughout the day, the VaR only represents the risk of the portfolios at the close of each business day, and it does not account for any losses that may occur beyond the 99.00% confidence level.

VaR estimates the potential loss on the current portfolio assuming a specified time horizon and level of confidence at 99.00%. The use of a 99.00% confidence level means that, within a one day horizon, losses exceeding the VaR figure should occur, on average, not more than once every one hundred days.

The validity of the assumptions underlying the Parent Company's VaR models can only be checked by appropriate backtesting procedures. Backtesting is a formal statistical framework that consists of verifying that actual losses are within the projected VaR approximations. The Parent Company adopts both the clean backtesting and dirty backtesting approaches approach in backtesting. Clean backtesting, consists of comparing the VaR estimates with some hypothetical profit or loss (P&L) values of the portfolio, having kept its composition unchanged. In this case, the same portfolio is repriced or marked-to-market at the end of the time interval and the hypothetical P&L is then compared with the VaR. The other method, called dirty backtesting, consists of comparing the VaR estimates with the actual P&L values at the end of the time horizon. This method, however, may pose a problem if the portfolio has changed drastically because of trading activities between the beginning and the end of the time horizon since VaR models assume that the portfolio is "frozen" over the horizon. The Parent Company uses the regulatory 3-zone (green, yellow and red) boundaries in evaluating the backtesting results.

The VaR models undergo close monitoring and regular review of the model's parameters and assumptions to determine model quality.

To complement the VaR approximations, the Parent Company conducts stress testing on a quarterly basis, the results of which are being reported to the BOD. Scenarios used in the conduct of stress test are event driven and represent the worst one-off event of a specific risk factor. Results of stress testing are analyzed in terms of the impact to earnings and capital.

Since VaR is an integral part of the Parent Company's market risk management, VaR limits have been established annually for all financial trading activities and exposures. Calculated VaR compared against the VaR limits are monitored. Limits are based on the tolerable risk appetite of the Parent Company.

The tables below show the trading VaR (in millions):

Trading Portfolio	Foreign Exchange*	Interest Rate	Equities Price	Total VaR**
December 29, 2023	₱3.99	₱86.63	₱0.00	₱90.62
Average Daily	9.26	133.08	0.00	142.34
Highest	33.27	313.88	0.00	320.92
Lowest	1.78	62.67	0.00	67.76

* *FX VaR is the bankwide foreign exchange risk*

** *The high and low for the total portfolio may not equal the sum of the individual components as the highs and lows of the individual trading portfolios may have occurred on different trading days*

Lowest	0.87	118.10	0.00	131.61

* *FX VaR is the bankwide foreign exchange risk*

** *The high and low for the total portfolio may not equal the sum of the individual components as the highs and lows of the individual trading portfolios may have occurred on different trading days*

4.4.2 Non-Trading Market Risk

Interest rate risk

The Group seeks to ensure that exposure to fluctuations in interest rates are kept within acceptable limits. Interest margins may increase as a result of such changes but may be reduced or may create losses in the event that unexpected movements arise.

Repricing mismatches will expose the Group to interest rate risk. The Group measures the sensitivity of its assets and liabilities to interest rate fluctuations by way of a “repricing gap” analysis using the repricing characteristics of its financial instrument positions tempered with approved assumptions. To evaluate earnings exposure, interest rate sensitive liabilities in each time band are subtracted from the corresponding interest rate assets to produce a “repricing gap” for that time band. The difference in the amount of assets and liabilities maturing or being repriced over a one year period would then give the Group an indication of the extent to which it is exposed to the risk of potential changes in net interest income. A negative gap occurs when the amount of interest rate sensitive liabilities exceeds the amount of interest rate sensitive assets. Vice versa, positive gap occurs when the amount of interest rate sensitive assets exceeds the amount of interest rate sensitive liabilities.

During a period of rising interest rates, a company with a positive gap is better positioned because the company’s assets are refinanced at increasingly higher interest rates increasing the net interest margin of the company over time. During a period of falling interest rates, a company with a positive gap would show assets repricing at a faster rate than one with a negative gap, which may restrain the growth of its net income or result in a decline in net interest income.

For risk management purposes, the loan accounts are assessed based on next repricing date, thus as an example, if a loan account is scheduled to reprice three years from year-end report date, slotting of the account will be based on the date of interest repricing. Deposits with no specific maturity dates are excluded in the one-year repricing gap except for the portion of volatile regular savings deposits which are assumed to be withdrawn during the one year period and assumed to be replaced by a higher deposit rate.

The Group uses the Earnings at Risk (EaR) methodology to measure the likely interest margin compression in case of adverse change in interest rates given the Group's repricing gap. The repricing gap covering the one-year period is multiplied by an assumed change in interest rates to yield an approximation of the change in net interest income that would result from such an interest rate movement. The Parent Company's BOD sets a limit on the level of EaR exposure tolerable to the Group. EaR exposure and compliance to the EaR limit is monitored monthly by the RMG and subject to a quarterly stress test.

The following table sets forth the repricing gap position of the Group and the Parent Company:

-100bps	(132,116)	(132,116)	745,988	745,988

In addition to EaR, the Parent Company also employs economic value-based measures that assess the present value of the expected net cash flows of assets and liabilities, particularly those that are interest-bearing, discounted to reflect market rates. At the same time that fluctuations in interest rates will affect the Parent Company's earnings, these will also have an impact on its net worth or capital position. In coming up with present values, the relevant risk-free rate shall be used to formulate discount factors. Resulting weighted net positions across tenors are aggregated to determine the Economic Value of Equity (EVE) per book and per major currency under different shock scenarios.

Delta EVE is the difference between the total net present value of expected asset and liability cash flows when discounted at prevailing market rates and when discounted against shocked interest rates. Delta EVE is computed based on several interest rate shock scenarios (e.g. parallel up, parallel down, short rates up, short rates down, steepening rates, flattening rates). The scenario with the most negative Delta EVE, pertaining to the highest decline in net present value, is compared to the medium to long-term Delta EVE trigger, which corresponds to a percentage of the Parent Company's Common Equity Tier 1 (CET1) capital.

As of December 31, 2023, the maximum negative Delta EVE is at ₱6.2 billion or 5.43% of CET1 capital coming from the steepening rates scenario.

Foreign currency risk

Foreign exchange is the risk to earnings or capital arising from changes in foreign exchange rates. The Group takes on exposure to effects of fluctuations in the prevailing foreign currency exchange rates on its financials and cash flows.

Foreign currency liabilities generally consist of foreign currency deposits in the Parent Company's FCDU books, accounts made in the Philippines or which are generated from remittances to the Philippines by Filipino expatriates and overseas Filipino workers who retain for their own benefit or for the benefit of a third party, foreign currency deposit accounts with the Parent Company and foreign currency-denominated borrowings appearing in the regular books of the Parent Company.

Foreign currency deposits are generally used to fund the Parent Company's foreign currency-denominated loan and investment portfolio in the FCDU. Banks are required by the BSP to match the foreign currency liabilities with the foreign currency assets held through FCDUs. In addition, the BSP requires a 30.00% liquidity reserve on all foreign currency liabilities held through FCDUs. Outside the FCDU, the Parent Company has additional foreign currency assets and liabilities in its foreign branch network.

The Group's policy is to maintain foreign currency exposure within acceptable limits and within existing regulatory guidelines. The Group believes that its profile of foreign currency exposure on its assets and liabilities is within conservative limits for a financial institution engaged in the type of business in which the Group is involved.

The table below summarizes the exposure to foreign exchange rate risk excluding those under the FCDU, categorized by currency (amounts in Philippine peso equivalent).

The exchange rates used to convert the Group and the Parent Company's US dollar-denominated assets and liabilities into Philippine peso were ₱55.37 to USD1.00 as of December 31, 2023 and ₱55.76 to USD1.00 as of December 31, 2022. The following tables set forth the impact of the range of reasonably possible changes in the USD:PHP exchange rate on the Group and the Parent Company's income before income tax and equity (due to the revaluation of monetary assets and liabilities) for the years ended December 31, 2023 and 2022:

	2023			
	Consolidated		Parent Company	
	Statement of Income	Equity	Statement of Income	Equity
+1.00%	₱371,640	(₱380,304)	₱351,243	(₱359,907)
-1.00%	(371,640)	380,304	(351,243)	359,907
	2022			
	Consolidated		Parent Company	
	Statement of Income	Equity	Statement of Income	Equity
+1.00%	(₱15,101)	₱6,734	₱77,524	(₱85,890)
-1.00%	15,101	(6,734)	(77,524)	85,890

The Group and the Parent Company do not expect the impact of the volatility on other currencies to be material.

5. Fair Value Measurement

The Group uses the following methods and assumptions in estimating the fair value of its assets and liabilities:

Assets and Liabilities	Fair value methodologies
Cash equivalents	At carrying amounts due to their relatively short-term maturity
Derivatives	Based on either: <ul style="list-style-type: none"> • quoted market prices; • prices provided by independent parties; or • prices derived using acceptable valuation models
Debt securities	For quoted securities – based on market prices from debt exchanges For unquoted securities ¹ – estimated using either: <ul style="list-style-type: none"> • quoted market prices of comparable investments; or • discounted cash flow methodology
Equity securities	For quoted securities – based on market prices from stock exchanges For unquoted securities – estimated using either: <ul style="list-style-type: none"> • quoted market prices of comparable investments ²; or • adjusted net asset value method ³ and applying a discount for lack of marketability
Loans and receivables	For loans with fixed interest rates – estimated using the discounted cash flow methodology ⁴ For loans with floating interest rates – at their carrying amounts
Investment properties	Appraisal by independent external and in-house appraisers based on highest and best use of the property (i.e., current use of the properties) ⁵ using either: <ul style="list-style-type: none"> • market data approach ⁶; or • replacement cost approach ⁷
Short-term financial liabilities	At carrying amounts due to their relatively short-term maturity
Long-term financial liabilities	For quoted debt issuances – based on market prices from debt exchanges For unquoted debt issuances – estimated using the discounted cash flow methodology ⁸

Notes:

¹ using interpolated PHP BVAL rates provided by the Philippine Dealing and Exchange Corporation (for government securities) and PHP BVAL rates plus additional credit spread (for corporate/private securities)

² using the most relevant multiples (e.g., earnings, book value)

³ measures the company's value by adjusting the carrying value of its assets to their fair values, and then subtracting the fair value of its liabilities

⁴ using the current incremental lending rates for similar loans

⁵ considering other factors such as size, shape and location of the properties, price per square meter, reproduction costs new, time element, discount, among others

⁶ using recent sales of similar properties within the same vicinity and considering the economic conditions prevailing at the time of the valuations and comparability of similar properties sold

⁷ estimating the investment required to duplicate the property in its present condition

⁸ using the current incremental borrowing rates for similar borrowings

Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of assets and liabilities:

- Level 1 - Quoted (unadjusted) prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to their fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level of input that is significant to their fair value measurement is unobservable

The Group and the Parent Company held the following assets and liabilities measured at fair value, and at cost but for which fair values are disclosed:

*** Net of impairment losses (Note 13)

As of December 31, 2023 and 2022, there were no transfers between Level 1 and Level 2 fair value measurements.

The following table summarizes the significant unobservable inputs used to calculate the fair value of Level 3 financial assets at FVOCI of the Group and the Parent Company as of December 31, 2023 and 2022 and the range of values indicating the highest and lowest level input used in the valuation techniques.

	Significant Unobservable Input	2023 -2%	+2%	2022 -2%	+2%
Equity securities	Discount for lack of marketability	₱588,436	(₱588,436)	₱555,656	(₱555,656)

For certain unquoted equity securities, the Group imputes a discount for lack of marketability which is a valuation consideration often based on observed data and empirical evidence. Certain valuation studies suggest that private companies typically sell at lower transaction pricing multiples than similar public companies.

6. Segment Information

6.1 Business Segments

The Group's operating businesses are determined and managed separately according to the nature of services provided and the different markets served with each segment representing a strategic business unit. The Group's business segments follow:

- Retail Banking - principally handling individual customer's deposits, and providing consumer type loans, credit card facilities and fund transfer facilities;
- Corporate Banking - principally handling loans and other credit facilities and deposit accounts for corporate and institutional customers;
- Treasury - principally providing money market, trading and treasury services, as well as the management of the Group's funding operations by use of Treasury bills, government securities and placements and acceptances with other banks, through treasury and wholesale banking; and
- Other Segments - include, but not limited to, trust, leasing, remittances and other support services. Other support services of the Group comprise of operations and finance.

Transactions between segments are conducted at estimated market rates on an arm's length basis. Interest is credited to or charged against business segments based on pool rate which approximates the marginal cost of funds.

For management purposes, business segment report is done on a quarterly basis. Business segment information provided to the BOD, the chief operating decision maker (CODM), is based on the reportorial requirements under the Regulatory Accounting Principles (RAP) of the BSP, which differ from PFRS due to the manner of provisioning for impairment and credit losses, measurement of investment properties, and the fair value measurement of financial instruments. The report submitted to CODM represents only the results of operation for each of the reportable segment.

Segment assets are those operating assets that are employed by a segment in its operating activities and that either are directly attributable to the segment or can be allocated to the segment on a reasonable basis. Segment liabilities are those operating liabilities that result from the operating

activities of a segment and that either are directly attributable to the segment or can be allocated to the segment on a reasonable basis.

Segment revenues pertain to the net interest margin and other operating income earned by a segment in its operating activities and that either are directly attributable to the segment or can be allocated to the segment on a reasonable basis.

The Group has no significant customer which contributes 10.00% or more of the consolidated revenue.

Business segment information of the Group follows:

Equity securities				
Quoted	1,049,195	792,216	974,025	734,046
Unquoted (Note 33)	24,929,335	24,020,656	24,929,335	23,631,772
	₱164,531,492	₱158,183,525	₱164,136,971	₱157,205,907

Unquoted equity securities include the Parent Company's retained 49.00% interest in PNB Holdings Corporation (PNB Holdings) amounting to ₱24.6 billion and ₱23.2 billion as of December 31, 2023 and 2022, respectively (refer to Note 12.4). The fair value was determined using the adjusted net asset value method as discussed in Note 5. Further, the Parent Company applied 16.50% discount, being a non-listed company, by referring to a number of recent initial public offerings of comparative entities.

The effective interest rates of debt securities at FVOCI of the Group and the Parent Company range from:

	2023	2022	2021
Government securities	0.2% - 19.1%	0.2% - 26.2%	0.1% - 18.3%
Private debt securities	0.5% - 6.4%	0.5% - 6.4%	0.4% - 6.9%

As of December 31, 2023 and 2022, the fair value of financial assets at FVOCI in the form of government bonds pledged to fulfill its collateral requirements with securities sold under repurchase agreement transactions amounted to ₱6.5 billion and ₱2.5 billion, respectively (refer to Note 19.1). The counterparties have an obligation to return the securities to the Parent Company once the obligations have been settled. In case of default, the counterparties have the right to hold the securities and sell them as settlement of the repurchase agreement.

The movements in 'Net unrealized gains (losses) on financial assets at FVOCI' of the Group and the Parent Company are as follows:

	Consolidated		Parent Company	
	2023	2022	2023	2022
Balance at the beginning of the year	(₱5,959,275)	(₱703,737)	(₱5,959,275)	(₱703,737)
Changes in fair values:				
Debt securities	2,581,505	(5,808,581)	2,558,481	(5,799,196)
Equity securities	1,368,570	394,654	1,368,570	401,920
Reversals of credit losses (Note 16)	(75,912)	(12,566)	(72,676)	(12,069)
Realized losses (gains)	(122)	1,058,318	—	1,058,318
Share in net unrealized gains (losses) of subsidiaries and an associate (Note 12)	362,392	(885,481)	382,058	(902,788)
	(1,722,842)	(5,957,393)	(1,722,842)	(5,957,552)
Income tax effect (Note 30)	189	(1,882)	189	(1,723)
	(₱1,722,653)	(₱5,959,275)	(₱1,722,653)	(₱5,959,275)

As of December 31, 2023 and 2022, the allowance for credit losses on debt securities at FVOCI (included in 'Net unrealized losses on financial assets at FVOCI') amounted to ₱109.0 million and ₱121.6 million, respectively, for the Group, and ₱46.8 million and ₱119.5 million, respectively, for the Parent Company (refer to Note 16.2). Movements in ECL on debt securities at FVOCI are mostly driven by movements in the corresponding gross figures.

9.3 Investment Securities at Amortized Cost

This account consists of:

	Consolidated		Parent Company	
	2023	2022	2023	2022
Government securities (Notes 19 and 32)	₱104,533,382	₱78,197,433	₱104,063,420	₱78,058,151

Less allowance for credit losses (Note 16)	155,835	3,847,850	155,835	3,847,850
	₱123,200,427	₱110,467,960	₱122,730,465	₱110,328,678

The effective interest rates of investment securities at amortized cost of the Group and the Parent Company range from:

	2023	2022	2021
Government securities	0.8% - 7.5%	0.8% - 7.5%	0.1% - 7.4%
Private debt securities	1.0% - 8.3%	0.8% - 8.3%	0.4% - 6.9%

In 2023 and 2022, movements in allowance for expected credit losses on investment securities at amortized cost are mostly driven by newly originated assets which mostly remained in Stage 1.

As of December 31, 2023 and 2022, the fair value of investment securities at amortized cost in the form of government bonds pledged to fulfill its collateral requirements with securities sold under repurchase agreements transactions amounted to ₱5.5 billion with corresponding carrying value of the same amount (refer to Note 19.1). As of December 31, 2023 and 2022, government securities with carrying values of ₱1.8 billion and ₱1.6 billion, respectively, are deposited with the BSP in compliance with trust regulations (refer to Note 32).

As of December 31, 2023, the Group set aside government securities booked under 'Investment securities at amortized cost' with total carrying value of ₱363.3 million as liquidity cover for 50.0% of the outstanding balances of electronic money (e-money) products in compliance with BSP Circular 1166, *Amendments to the Regulations on Electronic Money and the Operations of Electronic Money Issuers in the Philippines*. This is on top of the fund held in trust to cover for the other 50.0% of the outstanding e-money balances (refer to Note 15).

9.4 Interest Income on Investment Securities at Amortized Cost and FVOCI

10.2 Lease Contract Receivables

An analysis of the Group's lease contract receivables follows:

	Consolidated	
	2023	2022
Minimum lease payments		
Due within one year	₱7	₱446,485
Due beyond one year but not over five years	2,734	196,987
	2,741	643,472
Residual value of leased equipment		
Due within one year	5,658	107,634
Due beyond one year but not over five years	—	122,772
	5,658	230,406
Gross investment in lease contract receivables (Note 29)	₱8,399	₱873,878

10.3 Interest Income on Loans and Receivables

As of December 31, 2023 and 2022, 69.6% and 69.5%, respectively, of the total receivables from customers of the Group were subject to interest repricing. As of December 31, 2023 and 2022, 70.6% and 70.5%, respectively, of the total receivables from customers of the Parent Company were subject to interest repricing. Remaining receivables carry annual fixed interest rates ranging from 1.0% to 9.0% in 2023, 2022 and 2021 for foreign currency-denominated receivables, and from 1.1% to 31.5% in 2023, 2022 and 2021 for peso-denominated receivables.

Sales contract receivables bear fixed interest rates per annum ranging from 5.0% to 20.2% in 2023, 4.2% to 20.2% in 2022 and from 3.3% to 21.0% in 2021.

The total recoverable value of certain property and equipment of the Group and the Parent Company for which impairment loss has been recognized or reversed amounted to ₱1.2 billion as of December 31, 2023 and 2022.

Certain property and equipment of the Parent Company with carrying amount of ₱90.0 million and ₱75.6 million are temporarily idle as of December 31, 2023 and 2022, respectively. As of December 31, 2023 and 2022, property and equipment of the Parent Company with gross carrying amount of ₱14.3 billion and ₱12.6 billion are fully depreciated but are still being used.

Gain (loss) on disposal of property and equipment in 2023, 2022 and 2021 amounted to ₱712.5 million, ₱34.9 million, and ₱8.4 million, respectively, for the Group and ₱793.1 million, ₱32.0 million and (₱0.8 million), respectively, for the Parent Company (refer to Note 26.2).

11.3 Project Real Estate (Project RE)

On September 10, 2020, the Parent Company's BOD approved Project RE, which is the Parent Company's strategic plan to realize the market value of certain real estate properties with a total carrying value of ₱12.6 billion booked under 'Property and equipment' amounting to ₱8.4 billion and 'Investment properties' amounting to ₱4.2 billion.

Project RE aims to reduce the low-earning assets of the Parent Company to strengthen its financial position. As part of a series of transactions carried out to meet the objectives of Project RE, on September 25, 2020, the Parent Company's BOD approved the subscription of additional 466,770,000 shares of PNB Holdings with a par value of ₱100 per share at a subscription price of ₱100 per share in exchange for the above real estate properties (refer to Note 12.4).

In 2002, the Parent Company underwent a quasi-reorganization which was approved by the SEC on November 7, 2002. As of December 31, 2023 and 2022, the acquisition cost of the investments in the Parent Company's separate financial statements includes the balance of ₱2.1 billion consisting of the translation adjustment and accumulated equity in net earnings of investee companies, net of dividends subsequently received from the quasi-reorganization date, that were closed to deficit on restructuring date and are not available for dividend declaration.

12.1 Investment in AIHI

On February 10, 2022, the SEC approved the decrease of AIHI's authorized capital stock from ₱15.0 billion divided into 149,975,000 common shares with par value of ₱100 each and 25,000 preferred shares with par value of ₱100 each to ₱3.0 billion divided into 30,000,000 common shares with par value of ₱100 each. Consequently, on February 18, 2022, out of the ₱10.5 billion subscribed and paid-up capital of the Parent Company in AIHI, the latter returned ₱7.5 billion to the Parent Company.

AIHI's corporate term ended on December 31, 2022 but, as provided by law, it will continue to exist as a body corporate for another three years to generally wind up its affairs, including the disposal of its properties and distribution of its assets.

12.2 Investment in PNB Capital

On October 27, 2023 and December 16, 2022, the BOD of PNB Capital approved the declaration of cash dividends amounting to ₱448.9 million and ₱792.0 million, which were subsequently paid to the Parent Company on December 27, 2023 and December 22, 2022, respectively.

12.3 Investment in PMLFC

On June 24, 2022, the BOD of the Parent Company approved the amendment to the Articles of Incorporation of PMLFC, shortening its corporate term to March 31, 2024. On December 23, 2022 the SEC approved the above amendment. The Parent Company and its joint venture partner, Mizuho Leasing Co. Ltd., mutually agreed to wind up the operations of PMLFC due to the impact of the COVID-19 pandemic to the operations of the joint venture company and the domestic leasing industry. On the other hand, on November 22, 2023, the SEC approved the amendment to the Articles of Incorporation of PMERC, the wholly-owned subsidiary of PMLFC, to shorten its corporate term to December 31, 2024. To date, the winding-up process for both PMLFC and PMERC is ongoing and expected to be completed in 2024.

In 2023 and 2022, PMLFC transferred to the Parent Company certain receivables via direct purchase or assignment. The Parent Company also accepted in 2023 certain properties of PMLFC and PMERC as partial settlement of their outstanding loans with the Parent Company. Such loans were eventually written off as of December 31, 2023 (refer to Note 33.1).

As of December 31, 2023 and 2022, the carrying value of the Parent Company's equity investment in PMLFC is already reduced to nil. However, by virtue of the Parent Company's commitment to provide further funding in PMLFC, the Parent Company recognized additional losses amounting to ₱144.2 million and ₱95.5 million in 2023 and 2022, respectively, representing its share in the accumulated net losses of PMLFC. Further, the Parent Company recognized provision for liability amounting to nil and ₱649.7 million relating to the undrawn loan commitments of PMLFC as of December 31, 2023 and 2022, respectively, recorded under 'Other liabilities' in the statement of financial position (refer to Notes 22 and 33).

12.4 Investment in PNB Holdings

As of December 31, 2020, PNB owns all of the 2,551,000 shares issued by PNB Holdings, with par value of ₱100 per share. On January 13, 2021, the SEC approved the increase in the authorized capital stock of PNB Holdings from ₱500.0 million divided into 5,000,000 shares with par value of ₱100 per share, to ₱50.5 billion divided into 505,000,000 shares with the same par value. On the same date, the Parent Company proceeded with the subscription of additional 466,770,000 shares of PNB Holdings shares in exchange for certain real estate properties with fair values of ₱46.7 billion (refer to Note 11.3).

On April 23, 2021, the Parent Company's BOD approved the property dividend declaration of up to 239,353,710 common shares of PNB Holdings, representing 51.00% ownership, with a par value of ₱100 per share, to all stockholders of record as of May 18, 2021, or ₱23.9 billion.

On December 24, 2021, the SEC approved the property dividend declaration. On the same date, the Parent Company assessed that it has lost control over PNB Holdings, and accordingly classified its retained interest of 49.00% in PNB Holdings as financial asset at FVOCI with no recycling to profit or loss, in accordance with PFRS 9. Such investment was remeasured from its carrying amount of ₱6.6 billion to its fair value as of December 24, 2021 of ₱23.0 billion, resulting in a gain on remeasurement of ₱16.5 billion and ₱16.4 billion in the 2021 consolidated and parent company financial statements, respectively (refer to Note 33).

Further, the Group and the Parent Company recognized gain on loss of control over PNB Holdings of ₱17.0 billion and ₱17.1 billion in the 2021 consolidated and parent company financial statements, respectively. On December 21, 2021, the Parent Company was able to secure ruling from the Bureau of Internal Revenue (BIR) that the transfer of properties to PNB Holdings is not subject to tax, except for documentary stamps tax (DST). Further, on March 10, 2022, the Parent Company was able to secure another ruling from the BIR that the property dividends distribution is exempt from tax, except for DST.

The Parent Company was able to demonstrate loss of control over PNB Holdings because of the following:

- Declaration of 51.00% ownership in PNB Holdings as property dividends;
- Execution of proxy in favor of LTG for the remaining 49.00% held by the Group;
- Election of new BOD made by the stockholders of PNB Holdings in January 2021, effectively resulting in the Group having no representations in the BOD of PNB Holdings;
- Appointment of key management personnel by the BOD of PNB Holdings, resulting in the Group having no officers and staff participating in the day-to-day operations of PNB Holdings; and
- Approval of the SEC of the property dividend declaration and distribution to all stockholders as of May 18, 2021.

The foregoing corporate actions were taken by PNB and LTG to allow PNB to focus on its core banking business. These demonstrate that the Group no longer exercises control over PNB Holdings as certain elements of control under PFRS 10, *Consolidated Financial Statements*, are no longer demonstrated. The Group also reclassified the results of operations of PNB Holdings as discontinued operations (refer to Note 36.2).

Further, the Group no longer has a significant influence over PNB Holdings by virtue of the execution of a proxy in favor of LTG to vote all shares registered in the name of PNB on any and all matters in the Annual Stockholders' Meeting of PNB Holdings and the fact that LTG controls both PNB and PNB Holdings.

12.5 Investment in PNB General Insurers Co., Inc. (PNB Gen)

On December 29, 2020, the Parent Company and PNB Holdings entered into a Sale and Purchase Agreement (SPA) for the sale of all their respective shareholdings in PNB Gen to Alliedbankers Insurance Corporation (ABIC), an affiliate, for a total purchase price of ₱1.5 billion, which was paid as follows:

- PNB Holdings Purchase Price (₱521.8 million) – fully paid on December 28, 2020; and
- PNB Purchase Price (₱1.0 billion) – paid in four tranches until April 30, 2021, earning interest at 6.00% per annum.

The SPA also provides for a grant of an exclusive bancassurance arrangement with ABIC with a minimum guaranteed term of 15 years for an additional consideration of ₱50.0 million to the Parent Company, on top of the total purchase price.

On December 29, 2020, the Insurance Commission approved the above transaction. As of December 31, 2020, only the sale of PNB Holdings of its shares in PNB Gen met all the closing conditions for the sale. Accordingly, PNB Holdings closed and completed the sale of its 34.25% shareholdings in PNB Gen, with the excess of the purchase price over the carrying value of the proportionate interest of ₱344.7 million treated as an equity transaction in the consolidated financial statements of the Group as ‘Other equity reserves’.

In 2021, the Parent Company completed the sale of its shares in PNB Gen, recognizing loss on sale amounting to ₱149.5 million and ₱134.9 million for the Group and the Parent Company, respectively, which was recorded under ‘Gain on loss of control of subsidiaries - net’. Also in 2021, the Parent Company received interest income of ₱14.1 million from ABIC for this transaction.

12.6 Material Non-Controlling Interests

Proportion of equity interest held by material NCI follows:

	Principal Activities	Equity interest of NCI		Accumulated balances of material NCI		Profit allocated to material NCI	
		2023	2022	2023	2022	2023	2022
ABCHKL	Banking	49.00%	49.00%	₱2,230,261	₱2,179,752	₱71,784	₱79,115

12.7 Investment in APLII

On June 6, 2016, the Parent Company entered into agreements with Allianz SE (Allianz), a German company engaged in insurance and asset management, for the sale of the 51.00% interest in PNB Life Insurance, Inc. (PNB Life) for a total consideration of USD66.0 million to form a new joint venture company named “Allianz-PNB Life Insurance, Inc.”; and a 15-year exclusive distribution access to the branch network of the Parent Company (Exclusive Distribution Rights or EDR).

The purchase consideration of USD66.0 million was allocated between the sale of the 51.00% interest in PNB Life and the EDR amounting to USD44.9 million (P2.1 billion) and USD21.1 million (P1.0 billion), respectively. The consideration allocated to the EDR was recognized as ‘Deferred revenue - Bancassurance’ (Note 22) and is amortized to income over 15 years from date of sale. The Parent Company also receives variable annual and fixed bonus earn-out payments based on milestones achieved over the 15-year term of the distribution agreement.

After receiving respective approvals from the BSP on December 6, 2022 and June 14, 2021, the Parent Company recorded additional investments in APLII amounting to P392.0 million and P245.0 million, respectively.

Summarized financial information of APLII (unaudited) as of December 31, 2023 and 2022 follows:

	2023	2022
Current assets	P2,181,489	P1,452,894
Noncurrent assets	113,166,291	90,446,895
Total assets	115,347,780	91,899,789
Current liabilities	1,404,749	1,535,802
Noncurrent liabilities	110,327,928	87,928,050
Total liabilities	111,732,677	89,463,852
Net assets	3,615,103	2,435,937
Percentage of ownership of the Group	44%	44%
Share in the net assets of the associate	P1,590,645	P1,071,812

The difference between the share in the net assets of APLII and the carrying value of the investments represents premium on acquisition/retained interest.

Summarized statement of comprehensive income of APLII (unaudited) in 2023 and 2022 follows:

	2023	2022
Revenues	₱6,867,294	₱4,344,038
Costs and expenses	6,257,991	4,486,380
Net income (loss)	609,303	(142,342)
Other comprehensive loss	(357,591)	(262,006)
Total comprehensive income (loss)	₱251,712	(₱404,348)
Group's share in comprehensive income (loss)	₱110,753	(₱177,913)

12.8 Significant Restrictions

The Group does not have significant restrictions on its ability to access or use its assets and settle its liabilities other than those resulting from the regulatory supervisory frameworks within which insurance and banking subsidiaries operate.

Foreclosed properties of the Parent Company still subject to redemption period by the borrowers amounted to ₱581.7 million and ₱199.9 million, as of December 31, 2023 and 2022, respectively.

The total recoverable value of investment properties of the Group and the Parent Company that were impaired amounted to ₱9.6 billion and ₱7.4 billion as of December 31, 2023 and 2022, respectively. Valuations were derived on the basis of recent sales of similar properties in the same area as the investment properties and taking into account the economic conditions prevailing at the time the valuations were made.

For the Group and the Parent Company, direct operating expenses on investment properties that generated rental income during the year (other than depreciation and amortization), included under 'Litigation and assets acquired expenses', amounted to ₱33.0 million, ₱29.2 million and ₱28.2 million in 2023, 2022, and 2021, respectively. Direct operating expenses on investment properties that did not generate rental income included under 'Litigation and assets acquired expenses', amounted to ₱397.6 million, ₱208.3 million and ₱173.3 million in 2023, 2022, and 2021, respectively (refer to Note 27.2).

14.1 CDI and CRI

CDI and CRI are the intangible assets acquired through the merger of the Parent Company with Allied Banking Corporation (ABC). CDI includes the stable level of deposit liabilities of ABC which is considered as favorably priced source of funds by the Parent Company. CRI pertains to ABC's key customer base which the Parent Company expects to bring more revenue through loan availments. CDI is allocated to Retail Banking CGU while CRI is allocated to Corporate Banking CGU. CDI and CRI are assessed for impairment where indicator(s) of objective evidence of impairment has been identified.

14.2 Software Cost

Software cost as of December 31, 2023 and 2022 includes capitalized development costs amounting to ₱2.0 billion, related to the Parent Company's core banking system.

14.3 Goodwill

The Parent Company accounted for the business combination with ABC under the acquisition method of PFRS 3. The Group has elected to measure the NCI in the acquiree at proportionate share of identifiable assets and liabilities. The business combination resulted in the recognition of goodwill amounting to ₱13.4 billion, allocated to the three CGUs which are also reportable segments.

Goodwill is reviewed for impairment annually in the fourth quarter of the reporting period, or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The impairment test is done by comparing the recoverable amount of each CGU with its carrying amount. The carrying amount of a CGU is derived based on its net assets plus the amount of

goodwill allocated to the CGU. The recoverable amount is the higher of a CGU's fair value less costs to sell and its VIU.

In 2023 and 2021, the goodwill impairment test performed by the Parent Company resulted in an impairment in value of ₱1.0 billion in the Treasury CGU and ₱2.2 billion in the Corporate Banking CGU, respectively, with the recoverable amounts being lower than their carrying amounts.

As of December 31, 2023 and 2022, goodwill for each CGU amounted to:

	2023			2022		
	Gross carrying amount	Accumulated impairment in value	Net carrying amount	Gross carrying amount	Accumulated impairment in value	Net carrying amount
Retail Banking	₱6,110,312	₱—	₱6,110,312	₱6,110,312	₱—	₱6,110,312
Corporate Banking	4,190,365	2,153,997	2,036,368	4,190,365	2,153,997	2,036,368
Treasury	3,074,730	1,036,567	2,038,163	3,074,730	—	3,074,730
	₱13,375,407	₱3,190,564	₱10,184,843	₱13,375,407	₱2,153,997	₱11,221,410

After the goodwill impairment test, as of December 31, 2023 and 2022, management believes that no reasonably possible change in any of the key assumptions discussed below would cause the carrying value of the goodwill to materially exceed its recoverable amount.

The recoverable amounts of the CGUs have been determined on the basis of the VIU calculation using the discounted cash flows (DCF) model. The DCF model uses earnings projections based on financial budgets approved by senior management and the BOD of the Parent Company covering a three-year period and are discounted to their present value. Estimating future earning involves judgment which takes into account past and actual performance and expected developments in the respective markets and in the overall macro-economic environment.

The following rates were applied to the cash flow projections:

	2023			2022		
	Retail Banking	Corporate Banking	Treasury	Retail Banking	Corporate Banking	Treasury
Pre-tax discount rate	11.92%	11.92%	10.06%	13.23%	13.23%	11.23%
Projected growth rate	5.30%	5.30%	5.30%	5.50%	5.50%	5.50%

The calculation of VIU is most sensitive to estimates of future cash flows from the business, interest margin, discount rates, projected long-term growth rates (derived based on the forecast local gross domestic product) used to extrapolate cash flows beyond the budget period.

The discount rate applied has been determined based on cost of equity for the Retail and Corporate Banking CGUs and weighted average cost of capital (WACC) for the Treasury CGU. WACC is computed by multiplying the cost of equity and the post-tax cost of debt by their relevant weights using debt-equity mix of comparable listed banks, and adding the products together. The cost of equity is derived using the capital asset pricing model which is comprised of a market risk premium, risk-free interest rate and the beta factor, all of which were obtained from external sources of information. The post-tax cost of debt is comprised of the risk-free interest rate and the Group's credit spread, after applying the prevailing corporate income tax.

‘Fund for electronic money products’ represents the fund set up held in trust by the Parent Company’s Trust Banking Group (TBG) for the specific purpose of liquidation of balances of e-money products of the Group in compliance with BSP Circular 1166. Such amount held in the trust account shall not fall below the required minimum balance of at least 50.0% of the outstanding e-money balances. The remaining 50.0% are covered by government securities booked under ‘Investment securities at amortized cost’ amounting to ₱363.3 million as of December 31, 2023 (refer to Note 9.3).

‘Deferred charges’ include the share of the Group in the cost of transportation equipment acquired under the Group’s car plan which are amortized monthly over five years.

‘Real estate inventories held under development’ represent parcels of land contributed by the Parent Company under joint arrangements with real estate developers to be developed as residential condominium units and subdivision lots.

‘Chattel mortgage properties’ pertain to motor vehicles, equipment and assets other than real estate properties, which were acquired by the Group in settlement of loans. As of December 31, 2023 and 2022, accumulated depreciation on the chattel mortgage properties amounted to ₱337.6 million and ₱229.1 million, respectively, for the Group and ₱337.6 million and ₱215.3 million, respectively, for the Parent Company. As of December 31, 2023 and 2022, the total recoverable value of certain chattel mortgage properties of the Group and the Parent Company that were impaired is at ₱1.2 million.

‘Miscellaneous financial assets’ include revolving fund, petty cash fund and miscellaneous cash and other cash items. ‘Miscellaneous nonfinancial assets’ include postages, refundable deposits, notes taken for interest and sundry debits.

16. Impairment, Credit and Other Losses

16.1 Provision for Impairment, Credit and Other Losses

17. Deposit Liabilities

17.1 Regulatory Reserve Requirements

As of December 31, 2023 and 2022, peso deposit liabilities are subject to reserves equivalent to 9.50% and 12.00%, respectively, while peso-denominated LTNCDs are subject to reserves equivalent to 4.00%.

Available reserves booked under ‘Due from BSP’ amounted to ₱78.4 billion and ₱74.7 billion as of December 31, 2023 and 2022, respectively (refer to Note 7).

17.2 LTNCDs

LTNCDs issued by the Parent Company consist of:

Issue Date	Maturity Date	Face Value	Coupon Rate	Interest Repayment Terms	Carrying Value	
					2023	2022
October 11, 2019	April 11, 2025	₱4,600,000	4.38%	Quarterly	₱4,591,288	₱4,584,136
February 27, 2019	August 27, 2024	8,220,000	5.75%	Quarterly	8,212,255	8,198,193
October 26, 2017	April 26, 2023	6,350,000	3.88%	Quarterly	–	6,347,683
					₱12,803,543	₱19,130,012
					₱19,170,000	

17.3 Interest Expense on Deposit Liabilities

This account consists of:

	Consolidated			Parent Company		
	2023	2022	2021	2023	2022	2021
Savings	₱6,989,245	₱1,589,891	₱1,942,687	₱6,984,663	₱1,605,241	₱2,014,705
Time	5,036,686	2,437,557	1,411,973	5,010,322	2,434,206	1,411,974
LTNCDs	776,034	1,140,954	1,269,356	776,034	1,140,954	1,269,356
Demand	203,681	203,265	189,750	200,798	202,752	189,750
	₱13,005,646	₱5,371,667	₱4,813,766	₱12,971,817	₱5,383,153	₱4,885,785

As of December 31, 2023 and 2022, noninterest-bearing deposit liabilities amounted to ₱27.1 billion and ₱27.8 billion, respectively, for the Group, and ₱27.0 billion and ₱27.7 billion, respectively, for the Parent Company.

The remaining deposit liabilities of the Group and the Parent Company generally earn annual fixed interest rates ranging from:

	Consolidated			Parent Company		
	2023	2022	2021	2023	2022	2021
Peso-denominated	0.10% - 7.50%	0.10% - 6.12%	0.10% - 6.75%	0.10% - 7.50%	0.10% - 6.12%	0.10% - 5.00%
Foreign currency-denominated	0.10% - 6.10%	0.00% - 5.50%	0.01% - 3.00%	0.10% - 6.10%	0.00% - 5.50%	0.01% - 3.00%

In 2023, 2022 and 2021, interest expense on LTNCDs for both the Group and the Parent Company includes amortization of transaction costs amounting to ₱23.5 million, ₱29.6 million and ₱33.4 million, respectively. Unamortized transaction costs of the LTNCDs amounted to ₱16.5 million and ₱40.0 million as of December 31, 2023 and 2022, respectively.

18. Financial Liabilities at Fair Value Through Profit or Loss

As of December 31, 2023 and 2022, this account consists of currency forwards and spots with negative fair values amounting to ₱0.6 billion and ₱1.0 billion, respectively, for the Group and Parent Company (refer to Notes 23 and 35).

19. Bills and Acceptances Payable

19.1 Information on Bills and Acceptances Payable

This account consists of:

	Consolidated		Parent Company	
	2023	2022	2023	2022
Bills payable to:				
Foreign banks	₱10,607,231	₱6,665,834	₱10,607,231	₱6,609,593
BSP and local banks (Note 33)	395	1,036,491	395	395

21. Bonds Payable

This account consists of:

Issue Date	Maturity Date	Face Value	Coupon Rate	Interest Repayment Terms	Carrying Value	
					2023	2022
June 27, 2019	September 27, 2024	USD750,000	3.28%	Semi-annually	₱41,490,871	₱41,722,415
April 26, 2018	April 27, 2023	300,000	4.25%	Semi-annually	—	16,716,682
		USD1,050,000			₱41,490,871	₱58,439,097

The Parent Company’s issued bonds are fixed-rate medium-term senior notes, which are drawdowns from its Medium Term Note Programme (the MTN Programme) established on April 13, 2018 with an initial nominal size of US\$1.0 billion. On June 14, 2019, the Parent Company increased the size of its MTN Programme to US\$2.0 billion. Both issuances are listed in the Singapore Exchange Securities Trading Limited.

As of December 31, 2023 and 2022, the unamortized transaction costs of bonds payable amounted to ₱26.3 million and ₱92.8 million, respectively. In 2023 and 2022, amortization of transaction costs amounting to ₱66.5 million and ₱75.9 million, were charged to ‘Interest expense on bonds payable’ in the statements of income.

22. Other Liabilities

	₱14,741,922	₱15,827,640	₱13,553,863	₱14,093,805

‘Deferred revenue - Bancassurance’ pertains to the allocated portion of the consideration received for the disposal of APLII related to the EDR and the exclusive bancassurance arrangement for the non-life insurance business with ABIC (refer to Note 12.7). In 2023 and 2022, amortization of other deferred revenue amounting to ₱73.2 million were recognized under ‘Service fees and commission income’ (refer to Note 26.1).

‘Miscellaneous’ include interoffice floats, remittance-related payables, overages, advance rentals and sundry credits.

23. Derivative Financial Instruments

The tables below show the fair values of the derivative financial instruments entered into by the Group and the Parent Company, recorded as ‘Financial assets at FVTPL’ (refer to Note 9.1) or ‘Financial liabilities at FVTPL’ (refer to Note 18), together with the notional amounts.

The notional amount is the amount of a derivative's underlying asset, reference rate or index and is the basis upon which changes in the value of derivatives are measured. The notional amounts indicate the volume of transactions outstanding as of December 31, 2023 and 2022 and are not indicative of either market risk or credit risk (amounts in thousands, except average forward rate).

25. Equity

25.1 Capital Stock

This account consists of (amounts in thousands, except for par value and number of shares):

	Shares	Amount
Common - ₱40 par value		
Authorized	1,750,000,001	₱70,000,000
Issued and outstanding		
Balance at the beginning and end of the year	1,525,764,850	₱61,030,594

The history of share issuances of the Parent Company since its initial public offering follows:

Date	Type of issuance	Number of common shares	Par value	Offer price
July 2019	Stock rights	276,625,172	₱40.00	₱43.38
February 2014	Stock rights	162,931,262	40.00	71.00
February 2013	Share-for-share swap with ABC common and preferred shares	423,962,500	40.00	97.90
September 2000	Pre-emptive stock rights	71,850,215	100.00	60.00
September 1999	Stock rights	68,740,086	100.00	137.80
December 1995	Third public offering	7,200,000	100.00	260.00
April 1992	Second public offering	8,033,140	100.00	265.00
June 1989	Initial public offering	10,800,000	100.00	100.00

In January 2013, the SEC approved the conversion of the Parent Company's 195,175,444 authorized preferred shares into common shares, thereby increasing its authorized common shares to 1,250,000,001. Further, in July 2014, the SEC approved the Parent Company's Articles of Incorporation for the increase in authorized capital by 500,000,000 common shares to 1,750,000,001.

The Parent Company's shares are listed in the PSE. As of December 31, 2023 and 2022, the Parent Company had 36,081 and 36,192 stockholders, respectively.

On July 22, 2019, the Parent Company successfully completed its Stock Rights Offering (SRO) of 276,625,172 common shares with a par value of ₱40.0 per share at a price of ₱43.38 each, raising gross proceeds of ₱12.0 billion. Out of the total transaction costs from the SRO, underwriting fees amounting to ₱10.0 million paid to PNB Capital, being one of the joint lead managers, was eliminated against 'Capital paid in excess of par value' in the consolidated financial statements.

25.2 Surplus

The computation of surplus available for dividend declaration in accordance with SEC Memorandum Circular No. 11-2008 differs to a certain extent from the computation following BSP guidelines.

As of December 31, 2023 and 2022, surplus amounting to ₱9.6 billion, representing the balances of the following equity items that have been applied to eliminate the Parent Company's deficit through quasi-reorganizations in 2002 and 2000 (refer to Note 12), is not available for dividend declaration without prior approval from the SEC and the BSP:

Revaluation increment on land and buildings	₱7,691,808
Accumulated translation adjustment	1,315,685
Accumulated equity in net earnings of investees	563,048
	₱9,570,541

25.3 Surplus Reserves

This account consists of:

	2023	2022
Reserves under BSP Circular 1011 (Note 10)	₱3,912,672	₱4,218,928
Reserves for trust business (Note 32)	660,258	630,314
Reserves for self-insurance	105,000	80,000
	₱4,677,930	₱4,929,242

‘Reserves under BSP Circular 1011’ represents the appropriation for the excess of 1% general loan loss provisions over the computed ECL for Stage 1 accounts in accordance with BSP Circular 1011.

‘Reserves for self-insurance’ represents the amount set aside to cover losses due to fire or defalcation by, and other unlawful acts, of the Parent Company’s personnel or third parties.

25.4 Accumulated Translation Adjustment

As part of the Group’s rehabilitation program in 2002, the SEC approved on November 7, 2002 the application of the accumulated translation adjustment of ₱1.6 billion to eliminate the Parent Company’s remaining deficit of ₱1.3 billion, including ₱0.6 billion accumulated equity in net earnings as of December 31, 2001, after applying the total reduction in par value amounting to ₱7.6 billion.

The SEC approval is subject to the following conditions:

- remaining translation adjustment of ₱310.7 million as of December 31, 2001 (shown as part of ‘Capital paid in excess of par value’ in the statement of financial position) will not be used to wipe out losses that may be incurred in the future without prior approval of SEC;
- for purposes of dividend declaration, any future surplus account of the Parent Company shall be restricted to the extent of the deficit wiped out by the translation adjustment.

25.5 Other Equity Reserves

On August 26, 2016, the Parent Company’s BOD approved the grant of centennial bonus to its employees, officers and directors on record as of July 22, 2016, in the form of the Parent Company’s shares of stock. The acquisition and distribution of the estimated 3.0 million shares shall be done over a period of five years, and are subject to service conditions. The grant is accounted for as equity-settled share-based payments. Grant date was April 27, 2017 when the fair value of the centennial bonus shares was at ₱65.20. In 2021, the Parent Company awarded 306 thousand centennial bonus shares and applied the settlement of the awards against ‘Other equity reserves’ amounting to ₱29.0 million.

25.6 Capital Management

The primary objectives of the Group’s capital management are to ensure that it complies with externally imposed capital requirements and it maintains strong credit ratings and healthy capital ratios in order to support its business and to maximize shareholders’ value.

The Parent Company and its financial allied subsidiaries are subject to the regulatory requirements of the BSP. The Group manages its capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the

capital structure, the Parent Company may adjust the amount of dividend payment to shareholders, return capital structure, or issue capital securities. No changes were made in the objectives, policies and processes from the previous periods. The Group has complied with all externally imposed capital requirements throughout the year.

25.6.1 BSP Reporting for Capital Management

Under existing BSP regulations, the determination of the Group's compliance with regulatory requirements and ratios is based on the amount of the Group's unimpaired capital (regulatory net worth) reported to the BSP, which is determined based on RAP, which differ from PFRS in some respects. In addition, the risk-based capital ratio of a bank or Capital Adequacy Ratio (CAR), expressed as a percentage of qualifying capital to risk-weighted assets, should not be less than 10.00% at all times for both solo basis (head office and branches) and consolidated basis (Parent Company and subsidiaries engaged in financial allied undertakings but excluding insurance companies). Qualifying capital and risk-weighted assets are computed based on RAP. Risk-weighted assets consist of total assets less cash on hand, due from BSP, loans covered by hold-out on or assignment of deposits, loans or acceptances under letters of credit to the extent covered by margin deposits and other non-risk items determined by the MB of the BSP.

On May 16, 2002, the BSP approved the booking of additional appraisal increment on properties of ₱431.8 million and recognition of the same in determining the CAR, and booking of translation adjustment of ₱1.6 billion representing the increase in peso value of the investment in foreign subsidiaries for purposes of the quasi-reorganization and rehabilitation of the Parent Company, provided that the same shall be excluded for dividend purposes.

As of December 31, 2023 and 2022, CAR reported to the BSP with certain adjustments is shown in the table below (amounts, except ratios, are expressed in millions):

	2023		2022	
	Actual	Required	Actual	Required
Consolidated				
CET1 Capital (Gross)	₱182,490		₱158,834	
Less: Regulatory Adjustments to CET1	47,253		48,221	
CET1 Capital (Net) / Tier 1 Capital	135,237		110,613	
Add: Tier 2 Capital	6,822		6,109	
Total qualifying capital	₱142,059	₱80,251	₱116,722	₱75,873
Total risk-weighted assets	₱802,506		₱758,730	
CET1 / Tier 1 capital ratio	16.85%		14.58%	
Total capital ratio	17.70%		15.38%	
	2023		2022	
	Actual	Required	Actual	Required
Parent Company				
CET1 Capital (Gross)	₱178,004		₱154,537	
Less: Regulatory Adjustments to CET1	64,326		61,587	
CET1 Capital (Net) / Tier 1 Capital	113,678		92,950	
Add: Tier 2 Capital	6,602		5,878	
Total qualifying capital	₱120,280	₱77,514	₱98,828	₱73,356
Total risk-weighted assets	₱775,138		₱733,556	
CET1 / Tier 1 capital ratio	14.67%		12.67%	
Total capital ratio	15.52%		13.47%	

BSP regulations set out a minimum CET1 ratio of 6.0% and Tier 1 capital ratio of 7.5%; capital conservation buffer of 2.5% comprised of CET1 capital; and total CAR of 10.0%.

In line with its ICAAP document, the Parent Company maintains a capital level that not only meets the BSP's CAR requirement, but also covers all material risks that it may encounter in the course of its business. The ICAAP process highlights close integration of capital planning and strategic management with risk management. The Parent Company has in place a risk management framework that involves a collaborative process for assessing and managing identified Pillar 1 and Pillar 2 risks. The Parent Company complies with the required annual submission of updated ICAAP.

25.6.2 BSP Reporting for Basel III Leverage Ratio

BSP also requires the Basel III Leverage Ratio (BLR), which is designed to act as a supplementary measure to the risk-based capital requirements. BLR intends to restrict the build-up of leverage in the banking sector to avoid destabilizing deleveraging processes, which can damage the broader financial system and the economy. Likewise, it reinforces the risk-based requirements with a simple, non-risk based "backstop" measure. BLR is computed as the capital measure (Tier 1 capital) divided by the total exposure measure and should not be less than 5.00%.

As of December 31, 2023 and 2022, BLR reported to the BSP with certain adjustments is shown in the table below (amounts, except ratios, are expressed in millions):

	Consolidated		Parent Company	
	2023	2022	2023	2022
Tier 1 capital	₱135,237	₱110,613	₱113,678	₱92,950
Total exposure measure	1,242,728	1,176,190	1,213,940	1,150,463
BLR	10.88%	9.40%	9.36%	8.08%

BLR is computed based on RAP.

	₱8,218,171	₱8,051,942	₱8,334,749	₱7,948,947	₱7,810,430	₱7,974,555

‘Others’ include stationery and supplies used, donation, fines, penalties, periodicals, magazines and other charges.

28. Retirement Plan

The Parent Company and certain subsidiaries of the Group have separate funded, noncontributory defined benefit retirement plans covering substantially all its officers and regular employees. Under these retirement plans, all covered officers and employees are entitled to cash benefits after satisfying certain age and service requirements.

The amounts of net defined benefit liability in the statements of financial position follow:

	Consolidated		Parent Company	
	2023	2022	2023	2022
Retirement benefit liability (included in ‘Other liabilities’) (Note 22)	₱281,585	₱384,838	₱269,390	₱382,449
Net plan assets (included in ‘Other assets - miscellaneous’) (Note 15)	17,283	5,988	—	—
	₱264,302	₱378,850	₱269,390	₱382,449

The Parent Company also provides certain post-employee benefit through a guarantee of a specified return on contributions in one of its employee investment plans (EIP).

The latest actuarial valuations for these retirement plans were made as of December 31, 2023.

The following table shows the actuarial assumptions as of December 31, 2023 and 2022 used in determining the retirement benefit obligation of the Group:

	Consolidated		Parent Company			
			Regular Plans		EIP	
	2023	2022	2023	2022	2023	2022
Discount rate	6.03% - 7.15%	6.92% - 7.15%	6.03%	6.92%	6.03%	6.93%
Salary rate increase	5.00% - 10.00%	6.00% - 10.00%	5.00%	6.00%	—	—

The Group and the Parent Company employ asset-liability matching strategies to maximize investment returns at the least risk to reduce contribution requirements while maintaining a stable retirement plan. Retirement plans are invested to ensure that liquid funds are available when benefits become due, to minimize losses due to investment pre-terminations and maximize opportunities for higher potential returns at the least risk.

The current plan assets of the Group and the Parent Company are allocated to cover benefit payments in the order of their proximity to the present time. Expected benefit payments are projected and classified into short-term or long-term liabilities. Investment instruments that would match the liabilities are identified. This strategy minimizes the possibility of the asset-liability match being distorted due to the Group's and the Parent Company's failure to contribute in accordance with its general funding strategy.

The changes in the present value obligation and fair value of plan assets are as follows:

In 2022, the Parent Company amended certain provisions of its defined benefit retirement plan and EIP, resulting in the recognition of past service costs amounting to ₱312.3 million.

The Group and the Parent Company expect to contribute ₱610.0 million and ₱594.8 million, respectively, to the defined benefit plans in 2023. The average duration of the retirement liability of the Group and the Parent Company as of December 31, 2023 is 14 years.

Shown below is the maturity analysis of the undiscounted benefit payments:

	Consolidated		Parent Company	
	2023	2022	2023	2022
Less than one year	₱2,006,787	₱1,715,711	₱2,006,149	₱1,715,118
More than one year to five years	5,561,003	5,337,983	5,536,660	5,313,181
More than five years to 10 years	4,216,312	4,452,313	4,181,267	4,399,376
More than 10 years to 15 years	3,796,315	3,946,295	3,776,079	3,867,711
More than 15 years	7,756,720	9,333,106	7,387,120	8,884,949

The fair values of plan assets by each class as at the end of the reporting periods are as follows:

	Consolidated		Parent Company	
	2023	2022	2023	2022
Cash and cash equivalents (Note 33)	₱2,704,983	₱3,897,238	₱2,692,996	₱3,887,225
Equity investments				
Electricity, gas and water	1,023,715	225,683	1,023,715	224,668
Manufacturing	549,340	133,468	549,340	133,468
Real estate, renting and business activities	377,728	210,570	376,478	207,323
Financial institutions (Note 33)	157,649	161,806	152,059	156,169
Others	50,946	58,668	42,631	49,170
Debt investment				
Government securities	2,296,273	1,796,154	2,283,209	1,787,280
Private debt securities	218,317	626,677	212,419	618,124
Investment in UITFs (Note 33)	566,714	565,266	556,626	555,186
Loans and receivables	561,330	160,380	561,330	160,380
Interest and other receivables	48,797	50,782	48,493	47,121
	8,555,792	7,886,692	8,499,296	7,826,114
Accrued expenses	(2,569)	(2,994)	(2,488)	(2,846)
	₱8,553,223	₱7,883,698	₱8,496,808	₱7,823,268

All equity and debt investments held have quoted prices in active markets. Fair value of investments in UITFs is based on their published net asset value per share. The remaining plan assets do not have quoted market prices in an active market, thus, their fair value is determined using the discounted cash flow methodology, using the Group's current incremental lending rates for similar types of loans and receivables.

The fair value of the plan assets as of December 31, 2023 and 2022 for the Group includes investments in the Parent Company shares of stock with fair value amounting to ₱152.1 million and ₱156.2 million, respectively (refer to Note 33.3).

The plan assets have diverse investments and do not have any concentration risk.

The sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption on the defined benefit obligation as of the end of the reporting period, assuming all other assumptions were held constant:

	2023			
	Consolidated		Parent Company	
	Possible fluctuations	Increase (decrease)	Possible fluctuations	Increase (decrease)
Discount rate	+1.00%	(P476,282)	+1.00%	(P470,919)
	-1.00%	531,114	-1.00%	524,667
Salary increase rate	+1.00%	491,712	+1.00%	485,411
	-1.00%	(460,915)	-1.00%	(455,512)
Employee turnover rate	+10.00%	61,646	+10.00%	61,050
	-10.00%	(61,646)	-10.00%	(61,050)

	2022			
	Consolidated		Parent Company	
	Possible fluctuations	Increase (decrease)	Possible fluctuations	Increase (decrease)
Discount rate	+1.00%	(P452,402)	+1.00%	(P446,082)
	-1.00%	504,175	-1.00%	496,643
Salary increase rate	+1.00%	469,231	+1.00%	461,837
	-1.00%	(432,648)	-1.00%	(426,285)
Employee turnover rate	+10.00%	61,043	+10.00%	60,283
	-10.00%	(61,043)	-10.00%	(60,283)

Full actuarial valuations were performed to test the sensitivity of the defined benefit obligation to a 1.00% increment in salary increase rate and a 1.00% decrement in the discount rate. The results also provide a good estimate of the sensitivity of the defined benefit obligation to a 1.00% decrement in salary increase rate and a 1.00% increment in the discount rate.

29. Leases

29.1 Group as Lessee

The Group has entered into commercial leases for its branch sites, ATM offsite location and other equipment. These non-cancellable leases have lease terms of 1 to 25 years. Most of these lease contracts include escalation clauses, an annual rent increase of 2.00% to 10.00%. The Group's right-of-use assets pertain to its branch sites and subsidiaries' offices under lease arrangements.

The Group has several lease contracts that include extension and termination options. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Group's business needs. Management exercises judgement in determining whether these extension and termination options are reasonably certain to be exercised.

Rent expense charged against current operations (included in 'Occupancy and equipment-related costs' in the statements of income) amounted to P264.1 million, P270.2 million and P251.5 million in 2023, 2022 and 2021, respectively, for the Group, of which P187.0 million, P201.6 million and P223.2 million in 2023, 2022, and 2021, respectively, pertain to the Parent Company. Rent expenses in 2023, 2022 and 2021 pertain to expenses from short-term leases and leases of low-value assets.

As of December 31, 2023 and 2022, the Group has no contingent rent payable.

As of December 31, 2023 and 2022, the carrying amounts of 'Lease liabilities' are as follows:

	Consolidated		Parent Company	
	2023	2022	2023	2022
Balance at beginning of year	₱3,636,391	₱3,765,391	₱3,604,077	₱3,698,410
Additions	1,340,509	799,014	1,185,129	789,687
Payments	(1,314,516)	(1,113,225)	(1,232,928)	(1,068,038)
Interest expense (Note 19)	171,570	171,885	168,285	170,692
Transfers	(1,070)	13,326	(1,247)	13,326
	₱3,832,884	₱3,636,391	₱3,723,316	₱3,604,077

The Parent Company has lease contracts with its affiliates (Note 33).

Future minimum rentals payable under non-cancelable leases follow:

	Consolidated		Parent Company	
	2023	2022	2023	2022
Within one year	₱1,072,255	₱1,010,202	₱987,562	₱925,509
Beyond one year but not more than five years	3,171,247	3,172,151	3,057,198	3,058,101
More than five years	388,583	801,283	292,988	705,688
	₱4,632,085	₱4,983,636	₱4,337,748	₱4,689,298

29.2 Group as Lessor Under Operating Leases

The Parent Company has entered into commercial property leases on its investment properties. These non-cancelable leases have lease terms of one to five years. Some leases include escalation clauses (such as 5.00% per year). In 2023, 2022 and 2021, total rent income (included under 'Miscellaneous income') amounted to ₱257.8 million, ₱275.9 million and ₱513.9 million, respectively, for the Group and ₱133.4 million, ₱47.3 million and ₱211.8 million, respectively, for the Parent Company (refer to Note 27.1).

Future minimum rentals receivable of the Group under non-cancelable operating leases follow:

	2023	2022
Within one year	₱246,175	₱42,163
Beyond one year but not more than five years	77,745	460,051
	₱323,920	₱502,214

29.3 Group as Lessor Under Finance Leases

Leases where the Group substantially transfers to the lessee all risks and benefits incidental to ownership of the leased asset are classified as finance leases and are presented as receivable at an amount equal to the Group's net investment in the lease. Finance income is recognized based on the pattern reflecting a constant periodic rate of return on the Group's net investment outstanding in respect of the finance lease (effective interest method). Lease payments relating to the period are applied against the gross investment in the lease to reduce both the principal and the unearned finance income.

The future minimum lease receivables under finance leases are disclosed under 'Loans and Receivables' in Note 10.2.

30. Income and Other Taxes

30.1 Philippine Tax Landscape and Regulations

Under Philippine tax laws, the Parent Company and certain subsidiaries are subject to percentage and other taxes (presented as ‘Taxes and licenses’ in the statements of income) as well as income taxes. Percentage and other taxes paid consist principally of gross receipts tax and documentary stamp tax.

Income taxes include the corporate income tax, discussed below, and final taxes paid which represents final withholding tax on gross interest income from government securities and other deposit substitutes and income from the FCDU transactions. These income taxes, as well as the deferred tax benefits and provisions, are presented as ‘Provision for income tax’ in the statements of income.

On March 26, 2021, Republic Act No. 11534, otherwise known as Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act was signed into law. CREATE reduced the RCIT rate from 30.00% to 25.00% depending on the criteria set by the law effective July 1, 2020. With the implementation of CREATE, interest expense allowed as a deductible expense shall be reduced by 20.00% of the interest income subjected to final tax, compared to the 33.00% reduction prior to the CREATE.

The regulations also provide for MCIT of 2.00% (prior to CREATE) and 1.00% from (July 1, 2020 to June 30, 2023 before reverting to 2.00%) on modified gross income and allow a NOLCO. The MCIT and NOLCO may be applied against the Group’s and the Parent Company’s income tax liability and taxable income, respectively, over a three-year period from the year of inception. For the taxable years 2021 and 2020, the NOLCO incurred can be carried over as a deduction for the next five (5) consecutive taxable years, pursuant to Revenue Regulations (RR) No. 25-2020.

Impact of CREATE Law

Applying the provisions of the CREATE Law, the Group and the Parent Company is subjected to lower regular corporate income tax rate of 25.00% effective July 1, 2020. The following are the impact of CREATE in the 2021 financial statements of the Group and the Parent Company:

- Based on the provisions of Revenue Regulations (RR) No. 5-2021 dated April 8, 2021 issued by the BIR, the transitory RCIT and MCIT rates applicable to the Group and the Parent Company for the taxable year 2020 is 27.50% and 1.50%, respectively. This resulted in reduction in the current income tax due for the taxable year 2020 amounting to ₱365.1 million and ₱361.4 million for the Group and the Parent Company, respectively. The reduced amounts were reflected in the 2020 Annual Income Tax Returns filed in 2021. For financial reporting purposes, such reductions in the 2020 current income taxes were recognized in the 2021 financial statements as reduction to 2021 income tax expense.
- The deferred tax assets as of December 31, 2021 were also remeasured using the lower RCIT rate of 25.00%. The net decrease in the deferred tax balances amounting to ₱1.5 billion for the Group and the Parent Company, reduced the provision for deferred tax by ₱1.5 billion for the Group and the Parent Company, and other comprehensive income by ₱9.2 million and ₱9.4 million for the Group and the Parent Company, respectively.

There were no tax-related contingent liabilities and contingent assets arising from the changes in the tax rates due to CREATE Act.

Current tax regulations also provide for the ceiling on the amount of EAR expense that can be claimed as a deduction against taxable income. Under the regulation, EAR expense allowed as a deductible expense for a service company like the Parent Company and some of its subsidiaries is limited to the actual EAR paid or incurred but not to exceed 1.00% of net revenue. EAR charged against current operations (included in 'Miscellaneous expenses' in the statements of income) amounted to ₱30.0 million in 2023, ₱155.0 million in 2022, and ₱189.1 million in 2021 for the Group, and ₱16.8 million in 2023, ₱145.4 million in 2022, and ₱181.3 million in 2021 for the Parent Company (refer to Note 27.2).

FCDU offshore income (income from non-residents) is tax-exempt while gross onshore income (income from residents) is subject to 10.00% income tax. In addition, interest income on deposit placements with other FCDUs and offshore banking units (OBUs) is taxed at 15.00%. Income derived by the FCDU from foreign currency-denominated transactions with non-residents, OBUs, local commercial banks including branches of foreign banks, is tax-exempt while interest income on foreign currency loans from residents other than OBUs or other depository banks under the expanded system is subject to 10.00% income tax.

30.2 Provision for Income Tax

Unrealized gains on financial assets at FVTPL and FVOCI	3,571	1,882	3,529	1,723
Others	18,308	18,642	—	—
	3,717,384	3,719,204	3,550,664	3,552,065
	₱6,815,635	₱6,451,181	₱6,929,669	₱6,574,190

^{1/} Balance includes deferred tax liability amounting to ₱614 million acquired from business combination

As of December 31, 2023 and 2022, the Group's net deferred tax liabilities as disclosed in 'Other liabilities' (refer to Note 22) include deferred tax liabilities on fair value adjustments due to business combination amounting to ₱148.3 million.

Deferred tax benefit (provision) credited (charged) directly to OCI pertaining to net unrealized losses (gains) on financial assets at FVOCI amounted to ₱0.2 million for the Group and the Parent Company in 2023, and (₱32.7 million) for the Group and the Parent Company in 2022.

Unrecognized deferred tax assets

The Parent Company and certain subsidiaries did not recognize deferred tax assets on the following unused tax credit and losses and temporary differences since they believe that the related tax benefits will not be realized in the future:

	Consolidated		Parent Company	
	2023	2022	2023	2022
Allowance for impairment and credit losses	₱8,262,820	₱8,615,344	₱8,262,820	₱8,615,344
Unamortized past service cost	1,576,711	2,140,071	1,576,711	2,140,071
Derivative liabilities	555,811	1,037,348	555,811	1,037,348
Unrealized losses on financial assets	147,661	870,774	147,661	870,774
Unrealized foreign exchange loss	95,747	627,501	95,747	627,501
Retirement liability	269,391	382,449	269,391	382,449

2020	P89,960	P–	P89,960	2025
2021	50,840	–	50,840	2026
2022	818,454	–	818,454	2025
	P959,254	P–	P959,254	

Unrecognized deferred tax liabilities

As of December 31, 2023 and 2022, there was a deferred tax liability of P895.9 million and P840.4 million for temporary differences of P3.6 billion and P3.4 billion related to investment in certain subsidiaries, respectively. However, this liability was not recognized because the Parent Company controls whether the liability will be incurred and it is satisfied that it will not be incurred in the foreseeable future.

30.4 Statutory Income Tax Reconciliation

The reconciliation between the statutory income tax rate to effective income tax rate follows:

	Consolidated			Parent Company		
	2023	2022	2021	2023	2022	2021
Statutory income tax rate	25.00%	25.00%	25.00%	25.00%	25.00%	25.00%
Tax effects of:						
Non-deductible expenses	12.28	14.69	4.54	12.16	13.73	5.20
Net unrecognized deferred tax assets	(11.20)	(6.04)	6.03	(11.74)	(6.36)	5.46
Tax-exempt income	(4.36)	(2.91)	(21.93)	(4.38)	(2.96)	(22.94)
Tax-paid income	(2.76)	(2.01)	(0.63)	(2.82)	(2.05)	(0.66)
FCDU loss (income) before tax	(0.61)	1.49	2.61	(0.61)	1.52	2.73
Optional standard deduction	(0.11)	(0.36)	(0.08)	–	–	–
CREATE adjustment – deferred tax	–	–	0.01	–	–	0.01
CREATE adjustment – current tax	–	–	(0.95)	–	–	(0.99)
Effective income tax rate	18.24%	29.86%	14.60%	17.61%	28.88%	13.81%

31. Earnings Per Share

Earnings per share attributable to equity holders of the Parent Company is computed as follows:

	Consolidated			Parent Company		
	2023	2022	2021	2023	2022	2021
a) Net income attributable to equity holders of the Parent Company	P17,979,257	P11,532,318	P31,630,626	P18,002,948	P11,532,318	P31,283,762
b) Weighted average number of common shares for basic earnings per share (Note 25)	1,525,765	1,525,765	1,525,765	1,525,765	1,525,765	1,525,765
c) Basic/Diluted earnings per share (a/b)	P11.78	P7.56	P20.73	P11.80	P7.56	P20.50

Earnings per share attributable to equity holders of the Parent Company from continuing operations is computed as follows:

	Consolidated			Parent Company		
	2023	2022	2021	2023	2022	2021
a) Net income from continuing operations attributable to equity holders of the Parent Company	₱17,979,257	₱11,532,318	₱32,365,991	₱18,002,948	₱11,532,318	₱31,283,762
b) Weighted average number of common shares for basic earnings per share (Note 25)	1,525,765	1,525,765	1,525,765	1,525,765	1,525,765	1,525,765
c) Basic/Diluted earnings per share (a/b)	₱11.78	₱7.56	₱21.21	₱11.80	₱7.56	₱20.50

In 2023, 2022 and 2021, there are no potential common shares with dilutive effect on the basic earnings per share.

32. Trust Operations

Securities and other properties held by the Parent Company through its TBG in fiduciary or agency capacities for its customers are not included in the accompanying statements of financial position since these are not assets of the Parent Company. Such assets held in trust were carried at a value of ₱168.0 billion and ₱152.7 billion as of December 31, 2023 and 2022, respectively. In connection with the trust functions of the Parent Company, government securities amounting to ₱1.9 billion and ₱1.6 billion (included under 'Investment securities at amortized cost') as of December 31, 2023 and 2022, respectively, are deposited with the BSP in compliance with trust regulations (refer to Note 9.3).

Trust fee income in 2023, 2022 and 2021 amounting to ₱373.7 million, ₱317.8 million and ₱319.4 million, respectively, is included under 'Service fees and commission income' (refer to Note 26.1).

In compliance with existing banking regulations, the Parent Company transferred from surplus to surplus reserves the amounts of ₱29.9 million, ₱24.7 million and ₱23.2 million in 2023, 2022 and 2021, respectively, which correspond to 10.00% of the net income realized in the preceding years from its trust, investment management and other fiduciary business until such related surplus reserve constitutes 20.00% of its regulatory capital (refer to Note 25.3).

33. Related Party Transactions

33.1 Summary of Significant Related Party Transactions

Details on significant related party transactions of the Group and the Parent Company follow (transactions with subsidiaries have been eliminated in the consolidated financial statements). Transactions reported under subsidiaries represent companies where the Parent Company has control, while those under related parties represent companies which are under common control.

Remedies over a loan exposure to a related party

In April 2022, the Parent Company entered into a dacion agreement with a related party over an investment property with fair value at the time of dacion of ₱1.4 billion in settlement of certain loans. The remedy to settle the loan also provided for the conversion of the remaining debt to equity shares of the former borrower.

Transactions relating to the investment in PNB Holdings

As discussed in Note 12.4, the Parent Company executed a proxy in favor of LTG to vote for the remaining 49.00% held by the Group in PNB Holdings. As a result, the Group accounted for its retained interest in PNB Holdings as financial asset at FVOCI with no recycling to profit and loss. The Group and the Parent Company recognized in 2021 a gain of ₱33.5 billion from the loss of control and remeasurement of the retained interest in PNB Holdings (refer to Note 12.4).

In relation to the property dividend declaration, the Parent Company, as a withholding agent, remitted ₱404.4 million to the BIR in January 2022, representing final withholding taxes on the property dividends of concerned stockholders. This was recorded under 'Accounts receivable' in the statement of financial position. The Parent Company shall eventually collect from the stockholders such amount advanced on their behalf upon distribution of the property dividends.

Financial assets at FVTPL traded through PNB Securities

As of December 31, 2023 and 2022, the Parent Company's financial assets at FVTPL include equity securities traded through PNB Securities with a fair value of ₱2.6 million and ₱15.4 million, respectively. The Parent Company recognized trading gain (losses) amounting to (₱0.04 million) in 2023, ₱0.1 million in 2022 and (₱7.1 million) in 2021 from the transactions facilitated by PNB Securities.

Joint arrangements with Eton Properties Philippines, Inc. (EPPI)

The Parent Company and EPPI signed two joint venture agreements (JVAs) for the development of two real estate properties of the Parent Company included under 'Other assets' (refer to Note 15) and with carrying values of ₱1.2 billion at the time of signing. EPPI and the Group are under common control. These two projects are among the Parent Company's strategies in reducing its non-performing assets. The Parent Company contributed the aforementioned properties into the joint venture (JV) as approved by BSP. EPPI, on the other hand, contributed its resources and technical expertise for the completion of the said JV. Income from the sale of the properties under the JV are shared by the Parent Company and EPPI in accordance with the terms of the JVAs.

In July 2016, the Parent Company executed deeds of conveyance to EPPI on the areas of the land under the JVA arrangement. The execution of the deeds of conveyance was made to facilitate the issuance of the condominium certificates of title to the buyers.

As of December 31, 2023 and 2022, the carrying values of the properties under the JV with EPPI amounted to ₱298.6 million and ₱507.9 million, respectively, booked in 'Real estate inventories held under development' under 'Other assets'.

Transactions with PMLFC and PMERC

The Parent Company entered into the following transactions with PMLFC and PMERC as part of their winding down procedures:

- On various dates in 2022 and 2023, PMLFC transferred to the Parent Company certain receivables either via direct purchase or assignment. Details are as follows:

Year of transfer	Underlying contract	Aggregate carrying values	Total consideration paid
2022	Direct Purchase	₱122,306	₱115,866
2023	Direct Purchase	51,235	51,612
	Receivables Purchase Agreement	287,040	278,998
	Deed of Assignment	210,734	185,572

- On various dates in 2023, the BOD of the Parent Company approved to accept certain properties of PMLFC and PMERC as settlement through dacion en pago to partially pay their respective outstanding loans to the Parent Company. Details are as follows:

Date of BOD approval	Borrower	Subject properties/ assets	Aggregate fair values	Dacion amount
April 28, 2023	PMLFC	Condominium units	₱100,258	₱100,258
April 28, 2023	PMERC	Equipment and other properties held for lease (EOPL)	261,407	245,984
December 15, 2023	PMLFC	Repossessed chattels	7,867	3,933

In 2023, rental income amounting to ₱54.6 million from the EOPL that were subject of the April 2023 dacion have accrued to the Parent Company after the dacion was implemented.

- Considering the transfer of the major assets of PMLFC and PMERC to the Parent Company and no other remaining leviable properties of PMLFC and PMERC to foreclose, on December 15, 2023, the BOD of the Parent Company approved to write off the remaining balance of the loans of PMLFC and PMERC amounting to ₱736.4 million and ₱242.4 million, respectively.

33.2 Remuneration of Key Management Personnel and Directors

The compensation of the key management personnel for the Group and Parent Company follows:

	2023	2022	2021
Short-term employee benefits	₱526,038	₱517,114	₱460,711
Post-employment benefits	53,041	47,424	50,629
	₱579,079	₱564,538	₱511,340

Non-executive directors are entitled to a per diem as follows: ₱50,000 for each BOD meeting attended and ₱25,000 for each BOD committee meeting attended, provided that in no case shall the total per diem exceed ₱0.25 million per month for committee meetings. No other emoluments are granted to non-executive directors of the Parent Company except for the aforementioned per diem. There is no profit-sharing arrangement between the Parent Company and its BOD. In 2023 and 2022, total per diem given to non-executive directors amounted to ₱71.3 million and ₱62.6 million, respectively, recorded in 'Miscellaneous expenses' in the statements of income. Directors' remuneration covers all BOD activities and membership of committees and subsidiary companies.

In 2021, key management personnel received 20,099 Parent Company shares in relation to the centennial bonus distribution.

33.3 Transactions with Retirement Plans

Management of the retirement funds of the Group and the Parent Company is handled by TBG. The fair values and carrying values of the funds of the Group amounted to ₱8.6 billion and ₱7.9 billion as of December 31, 2023 and 2022, respectively, and the fair values of the funds of the Parent Company amounted to ₱8.5 billion and ₱7.8 billion as of December 31, 2023 and 2022, respectively.

Relevant information on transactions with the retirement plans follows:

As of December 31, 2023 and 2022, the retirement funds of the Group and the Parent Company include 8,219,406 PNB shares, respectively, classified as financial assets at FVTPL. There are no limitations and restrictions over the PNB shares while the corresponding voting rights are exercised by a trust officer or any of its designated alternate officer of TBG.

In addition to the regular retirement funds, TBG also manages the funds of the Parent Company's EIP and fund for e-money products.

34. Provisions, Contingent Liabilities and Other Commitments

In the normal course of business, the Group makes various commitments and incurs certain contingent liabilities that are not presented in the financial statements including several suits and claims which remain unsettled. The Group and its legal counsel believe that any losses arising from these contingencies which are not specifically provided for will not have a material adverse effect on the financial statements.

There were no significant settlements made in 2023 and 2022.

In the ordinary course of the Group's operations, certain entities within the Group have pending tax assessments/claims which are in various stages of protest/appeal with the tax authorities, the amounts of which cannot be reasonably estimated. Management believes that the bases of said protest/appeal are legally valid such that the ultimate resolution of these assessments/claims would not have material effects on the consolidated financial position and results of operations.

35. Offsetting of Financial Assets and Liabilities

The effects of rights of offset and related arrangements (such as collateral posting requirements) for financial instruments under an enforceable master netting agreements or similar arrangements to the Group and the Parent Company's financial statements are disclosed in the succeeding tables.

Consolidated

Bonds payable	58,439,097	(16,560,000)	(388,226)	41,490,871
Lease liabilities	3,604,077	(1,232,928)	1,352,167	3,723,316
	₱75,931,209	(₱11,763,225)	₱1,208,806	₱65,376,790

Parent Company				
2022				
	Beginning balance	Net cash flows	Others	Ending balance
Bills and acceptances payable	₱51,113,018	(₱38,736,538)	₱1,511,555	₱13,888,035
Bonds payable	53,383,421	—	5,055,676	58,439,097
Lease liabilities	3,698,410	(1,068,038)	973,705	3,604,077
	₱108,194,849	(₱39,804,576)	₱7,540,936	₱75,931,209

Others include the effects of foreign exchange revaluations, additional lease liabilities, amortization of transaction costs, and accretion of interest.

38.2 Non-Cash Transactions

The following are non-cash transactions of the Group and the Parent Company in 2023 and 2022 relating to their long-term leases:

	Consolidated		Parent Company	
	2023	2022	2023	2022
Additions to right-of-use assets (Note 11)	₱1,425,032	₱803,905	₱1,292,130	₱803,905
Additional lease liabilities (Note 29)	1,340,509	799,014	1,185,129	789,687

On January 13, 2021, the Parent Company subscribed to additional 466,770,000 shares of PNB Holdings in exchange for certain real estate properties with fair values of ₱46.7 billion. On April 23, 2021, the Parent Company declared 51.00% ownership in PNB Holdings as property dividends to all stockholders of record as of May 18, 2021 (refer to Note 12.4).

On December 17, 2021, the BOD of PNB Capital approved the declaration of cash dividends amounting to ₱300.0 million. The Parent Company received such cash dividends from PNB Capital on June 29, 2022 (refer to Note 12.2).

The Group acquired investment properties through foreclosure, dacion and rescission amounting to ₱3.0 billion, ₱4.3 billion, and ₱524.7 million in 2023, 2022 and 2021, respectively. The Parent Company acquired investment properties acquired through foreclosure and rescission amounting to ₱3.0 billion, ₱4.3 billion and ₱334.4 million in 2023, 2022 and 2021, respectively (refer to Note 13). Included in the foreclosures in 2023 and 2022 are dacion transactions in settlement of certain loans in exchange for an investment property (refer to Note 33.1). Foreclosures in 2022 also include the debt-to-equity conversion of the remaining loan exposures of a former borrower (refer to Note 33.1).

The Group and the Parent Company applied creditable withholding taxes against its income tax payable amounting to ₱1.2 billion, ₱2.4 billion and ₱1.6 billion in 2023, 2022 and 2021, respectively.

39. Approval of the Release of the Financial Statements

The accompanying financial statements of the Group and of the Parent Company were authorized for issue by the Parent Company's BOD on February 23, 2024.

40. Report on the Supplementary Information Required Under Revenue Regulations No. 15-2010

On November 25, 2010, the BIR issued RR No. 15-2010, which provides that the notes to the financial statements shall include information on taxes, duties and license fees paid or accrued during the taxable year.

40.1 Taxes Paid or Accrued During the Taxable Year

The Parent Company paid or accrued the following types of taxes for the tax period January to December 2023 (in absolute amounts):

Taxes and licenses

	Amount
Gross receipts tax	₱2,680,374,285
Documentary stamp taxes	4,200,000,000
Real estate tax	41,785,908
Local taxes	170,322,577
Others	83,062,845
	<u>₱7,175,545,615</u>

Withholding taxes

	Remitted	Outstanding
Withholding taxes on compensation and benefits	₱877,599,290	₱164,160,522
Final income taxes withheld on interest on deposits and yield on deposit substitutes	1,562,643,647	179,479,293
Expanded withholding taxes	216,903,397	19,172,371
Withholding taxes on the amount withdrawn from the decedent's deposit account	19,520,327	2,491,279
VAT withholding taxes	22,218,383	20,086
Other final taxes	158,003,153	8,648,901
	₱2,856,888,197	₱373,972,452

40.2 Tax Cases and Assessments

As of December 31, 2023 and 2022, the Parent Company has no final tax assessment but has outstanding cases filed in courts for various claims for tax refund. Management is of the opinion that the ultimate outcome of these cases will not have a material impact on the financial statements of the Parent Company.

41. Report on the Supplementary Information Required Under Section 174 of the Manual of Regulations for Banks

41.1 Basic Quantitative Indicators of Financial Performance

The following basic ratios measure the financial performance of the Group and the Parent Company:

	Consolidated			Parent Company		
	2023	2022	2021	2023	2022	2021
Return on average equity	9.95%	7.00%	19.98%	10.15%	7.10%	20.08%
Return on average assets	1.53%	0.99%	2.62%	1.54%	0.99%	2.60%
Net interest margin on average earning assets	4.23%	3.61%	3.27%	4.23%	3.62%	3.26%

41.2 Description of Capital Instruments Issued

As of December 31, 2023 and 2022, the Parent Company has only one class of capital stock, which are common shares.

41.3 Significant Credit Exposures as to Industry Sector

An industry sector analysis of the Group's and the Parent Company's receivables from customers before taking into account allowance for credit losses is shown below.

	Consolidated				Parent Company

41.4.2 As to Status

The table below shows the status of the Group and the Parent Company's loans (gross allowance for credit losses) as to performing and non-performing loans (NPL) per product line:

	Consolidated			
	2023		2022	
	Performing	NPL	Performing	NPL
Corporate	₱541,116,157	₱33,347,894	₱517,026,645	₱26,814,155
Commercial	14,804,205	2,493,093	15,227,846	3,727,358
Credit cards	14,394,103	838,742	11,889,481	2,493,200
Consumer	24,647,541	10,156,533	24,706,149	10,973,208
	₱594,962,006	₱46,836,262	₱568,850,121	₱44,007,921

	Parent Company			
	2023		2022	
	Performing	NPL	Performing	NPL
Corporate	₱528,492,120	₱33,228,430	₱508,724,119	₱24,153,812
Commercial	15,315,245	1,883,944	15,475,530	2,027,403
Credit cards	14,394,103	838,742	11,889,481	2,493,200
Consumer	23,923,855	10,103,207	21,423,352	13,330,374
	₱582,125,323	₱46,054,323	₱557,512,482	₱42,004,789

Loans and receivables are considered NPL, even without any missed contractual payments, when considered impaired under existing accounting standards, classified as doubtful or loss, in litigation, and/or there is evidence that full repayment of principal and interest is unlikely without foreclosure of collateral, if any. All other loans, even if not considered impaired, are considered NPL if any principal and/or interest are unpaid for more than 90 days from contractual due date, or accrued interests for more than 90 days have been capitalized, refinanced, or delayed by agreement. Microfinance and other small loans with similar credit characteristics are considered NPL after contractual due date or after they have become past due. Restructured loans are considered NPL. However, if prior to restructuring, the loans were categorized as performing, such classification is retained.

NPLs remain classified as such until (a) there is sufficient evidence to support that full collection of principal and interests is probable and payments of interest and/or principal are received for at least six (6) months; or (b) written-off.

In 2022, the Parent Company adopted BSP Memorandum No. M-2021-056, *Regulatory Treatment of Restructured Loans for Purposes of Measuring Expected Credit Losses*, which provides guidance on the regulatory treatment of loans with terms and conditions that have been modified due to the impact of the COVID-19 pandemic, especially consumption loans, for purposes of measuring ECL and classifying the accounts as NPL.

The table below shows the gross and net NPL ratios of the Group and the Parent Company as reported to the BSP (with certain adjustments) as of December 31, 2023 and 2022:

	2023		2022	
	Gross NPL	Net NPL	Gross NPL	Net NPL
Consolidated	6.26%	2.46%	6.34%	2.58%
Parent Company	6.29%	2.49%	6.19%	2.54%

41.5 Information on Related Party Loans

In the ordinary course of business, the Parent Company has loans and other transactions with its subsidiaries and affiliates, and with certain Directors, Officers, Stockholders and Related Interests (DOSRI). These loans and other transactions are made substantially on the same terms as with other individuals and businesses of comparable risks. The amount of direct credit accommodations to each of the Parent Company's DOSRI, 70.00% of which must be secured, should not exceed the amount of their respective deposits and book value of their respective investments in the Parent Company.

In the aggregate, DOSRI loans generally should not exceed the Parent Company's equity or 15.00% of the its total loan portfolio, whichever is lower. Total outstanding exposures to each of the Parent Company's subsidiaries and affiliates shall not exceed 10.00% of the Group's net worth, the unsecured portion of which shall not exceed 5.00% of such net worth. Further, the total outstanding exposures to subsidiaries and affiliates shall not exceed 20.00% of the net worth of the Parent Company. As of December 31, 2023 and 2022, the Parent Company is in compliance with such regulations.

The information relating to the DOSRI loans of the Parent Company follows:

	2023		2022	
	DOSRI loans	Related party loans (inclusive of DOSRI loans)	DOSRI loans	Related party loans (inclusive of DOSRI loans)
Total outstanding loans	₱2,701	₱36,185,463	₱39,017	₱42,182,025
Percent of DOSRI/related party loans to total loan portfolio	0.00%	4.95%	0.01%	6.22%
Percent of unsecured DOSRI/related party loans to total DOSRI/related party loans	0.00%	83.48%	1.56%	86.52%
Percent of past due DOSRI/related party loans to total DOSRI/related party loans	45.40%	0.31%	3.52%	2.62%
Percent of non-performing DOSRI/related party loans to total DOSRI/related party loans	43.08%	0.31%	3.52%	2.62%

41.6 Aggregate Amount of Secured Liabilities and Assets Pledged as Security

As of December 31, 2023 and 2022, 'Bills payable' amounting to ₱10.1 billion and ₱6.6 billion in Note 19, respectively, are secured by a pledge of certain 'Financial assets at FVOCI' amounting to ₱6.5 billion and ₱2.5 billion respectively, and 'Investment securities at amortized cost' amounting to ₱5.5 billion.

41.7 Contingencies and Commitments Arising from Off-Balance Sheet Items

The following is a summary of various commitments, contingent assets and contingent liabilities at their equivalent peso contractual amounts as reported to BSP:

	Consolidated		Parent Company	
	2023	2022	2023	2022
Derivative forwards	₱195,661,001	₱151,543,370	₱190,805,863	₱147,448,673
Trust department accounts	168,037,276	152,746,479	168,037,276	152,746,479
Standby letters of credit	65,344,786	43,922,556	65,255,715	43,702,875

INDEPENDENT AUDITOR'S REPORT ON SUPPLEMENTARY SCHEDULES

The Stockholders and the Board of Directors
Philippine National Bank
PNB Financial Center
President Diosdado Macapagal Boulevard
Pasay City

We have audited in accordance with Philippine Standards on Auditing, the consolidated financial statements of Philippine National Bank and its Subsidiaries (the Group) as at December 31, 2023 and 2022, and for each of the three years in the period ended December 31, 2023, and have issued our report thereon dated February 23, 2024. Our audits were made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The schedules listed in the Index to the Supplementary Schedules are the responsibility of the Group's management. These schedules are presented for purposes of complying with the Revised Securities Regulation Code Rule 68, and are not part of the basic consolidated financial statements. These schedules have been subjected to the auditing procedures applied in the audit of the basic consolidated financial statements and, in our opinion, fairly state, in all material respects, the financial information required to be set forth therein in relation to the basic consolidated financial statements taken as a whole.

INDEPENDENT AUDITOR'S REPORT ON COMPONENTS OF FINANCIAL SOUNDNESS INDICATORS

The Stockholders and the Board of Directors
Philippine National Bank
PNB Financial Center
President Diosdado Macapagal Boulevard
Pasay City

We have audited in accordance with Philippine Standards on Auditing, the consolidated financial statements of Philippine National Bank and its Subsidiaries (the Group) as at December 31, 2023 and 2022, and for each of the three years in the period ended December 31, 2023, and have issued our report thereon dated February 23, 2024. Our audits were made for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The Supplementary Schedule on Financial Soundness Indicators, including their definitions, formulas, calculation, and their appropriateness or usefulness to the intended users, are the responsibility of the Group's management. These financial soundness indicators are not measures of operating performance defined by Philippine Financial Reporting Standards (PFRSs) and may not be comparable to similarly titled measures presented by other companies. This schedule is presented for the purpose of complying with the Revised Securities Regulation Code Rule 68 issued by the Securities and Exchange Commission, and is not a required part of the basic consolidated financial statements prepared in accordance with PFRSs. The components of these financial soundness indicators have been traced to the Company's consolidated financial statements as at December 31, 2023 and 2022 for each of the three years in the period ended December 31, 2023 and no material exceptions were noted.
