Quintel's success in entering Hawaii Market

Quintel USA, Inc., the Telecom Base Station Antenna unit under the holding firm, Cirtek Holdings Philippines Corporation ("Cirtek" or the "Company"), is pleased to announce success in entering Hawaii market and including it as a new market under its service coverage area in North America. For the state of Hawaii, Quintel will support the islands with its new antenna portfolio outperforming its competitors in aspects such as Passive Intermodulation Mitigation (PIM), wind loading, independent tilt capability and short delivery leadtime.

The 5G NR launch is the first in Hawaii using the 850 band. Our antennas provide Independent Tilt option when using these dual band radio. This means that the network optimization can independently control the coverage footprint of 5G which is in the 850 band and the 4G in the 700 band. Quintel, through its portfolio of Patents and Patents Pending, is positioned to release a family of both Macro and C-RAN antenna solutions in 2022 to help increase the network's data throughput.

Quintel has delivered its first batch of orders from Hawaii and will continue to help the island state improve its network in 2022 as the Telco continues with its infrastructure upgrades to support the market's growing wireless demand.

As part of its growth strategy, Quintel continues to expand through consistent new product introductions, innovations and closely working with customers on developing specific and tailored product solutions that addresses market challenges, nuances, and individual intricacies per customer in providing progressive wireless solutions.

Forward Looking Statements

This press release contains statements about future events and expectations that constitute "forward-looking statements." These forward-looking statements include words or phrases such as the Company or its management "believes", "expects", "anticipates", "intends", "may", "plans", "foresees", "targets", "aims" "would", "could" or other words or phrases of similar import. Similarly, statements that describe the Company's objectives, plans or goals are also forward-looking statements. All such forward-looking statements are subject to known and unknown risks and uncertainties that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Such forward looking statements are made based on management's current expectations or beliefs as well as assumptions made by, and information currently available to, management. These forward-looking statements speak only as at the date of this press release and nothing contained in this press release is or should be relied upon as a promise or representation as to the future.
